#### Subpart A—General Provisions

##### § 0.735-1 Purpose.

The maintenance of unusually high standards of honesty, integrity, impartiality, and conduct by Government employees and special Government employees is essential to assure the proper performance of the Government business and the maintenance of confidence by citizens in their Government. The confidence of citizens in their Government is influenced not only by the manner in which employees serve the public but in the way they conduct themselves in the eyes of the public. The avoidance of misconduct and conflicts of interests on the part of Government employees and special Government employees through informed judgment is indispensable to the maintenance of these standards. To accord with these concepts, this part sets forth the regulations for employees of the U.S. Department of Agriculture, prescribing standards of conduct and responsibilities and governing the reporting of employment and financial interests.

##### § 0.735-2 Definitions.

In this part:

(a) "Agency" means an independent subagency of the U.S. Department of Agriculture.

(b) "Agency Head" is the Administrator or Chief Executive Officer of an agency.

(c) "Conflict of interest" means the situation that exists when there is a conflict, or appearance of conflict, between the interest of an employee and the performance of his Government duties.

(d) "Employee" means a regular officer or employee of the Department of Agriculture including excepted and WOC employees and includes a special Government employee unless otherwise provided.

(e) "Special Government employee" means an officer or employee of the Department of Agriculture who is retained, designated, appointed, or employed to perform temporary duties either on a full-time or intermittent basis, with or without compensation, for not to exceed 130 days during any period of 365 consecutive days.

(f) "The Executive Order" means Executive Order 11222 of May 8, 1965.

##### § 0.735-3 Counseling and advisory service.

(a) The Assistant General Counsel for Marketing, Regulatory Laws, Research and Operations, shall serve as the Department Counselor and designee to the Civil Service Commission on matters covered by the regulations in this part. He shall have overall responsibility for coordination of the Department's counseling and advisory service, and for assuring advice and interpretations on questions of conflicts or apparent conflicts of interest and other matters covered by the regulations in this part are available to Deputy Counselors and Assistant Deputy Counselors hereinafter designated.

(b) The Director of Personnel and the Chief, Security and Employee Conduct Division, Office of Personnel, shall be Department Deputy Counselors.

(c) Agency Heads will be Agency Deputy Counselors. If necessary in order to assure that counseling and advisory service is available to all Washington and field employees, the Agency Head may designate as Agency Assistant Deputy Counselors such employees as are qualified and in a position to give authoritative advice and guidance on most matters covered by this part.

(d) All employees are to be notified of the availability of counseling and by whom this service is provided. Initial notification must be made within 90 days after issuance of this part, and periodically thereafter. A new employee or new special Government employee must be notified at or before the time of his entrance on duty.

(e) Each new employee shall be furnished at the time of hiring a copy of this part. Current employees shall be furnished a copy of these regulations within 90 days following issuance. Subsequent changes to these regulations will be furnished employees upon issuance. Each employee shall be reminded of the regulations in this part semiannually.

##### § 0.735-4 Agency supplementation.

Agencies of the Department may issue such additional regulations as are necessary and consistent with the regulations in this part, subject to the prior approval of the Director of Personnel. Agencies are expected to issue such supplemental regulations, with respect to employees assigned to particular programs, as are necessary to prevent such employees from being in a potential conflict of interest situation or a situation giving the appearance of a conflict of interest. Such Agency regulations shall be furnished to employees in the same manner as the regulations in this part.

##### § 0.735-5 Remedial action.

(a) A violation of this part by an employee may be cause for remedial action.

Remedial action may include, but is not limited to:

- (1) Changes in assigned duties;
- (2) Divestment by the employee of a conflicting interest;
- (3) Disqualification for a particular assignment; or
- (4) Disciplinary action which may be in addition to any penalty prescribed by law.

(b) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, Executive orders, and regulations.

#### Subpart B—Conduct and Responsibilities of Employees

##### § 0.735-11 Prohibited conduct—general.

(a) An employee shall avoid any action, whether or not specifically prohibited by this subpart, which might result in or create the appearance of:

- (1) Using public office for private gain;
- (2) Giving preferential treatment to any person;
- (3) Impeding Government efficiency or economy;
- (4) Losing complete independence or impartiality;
- (5) Making a Government decision outside of official channels; or
- (6) Affecting adversely the confidence of the public in the integrity of the Government.

(b) Employees are specifically prohibited from:

- (1) Engaging in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or other conduct prejudicial to the Government;
- (2) Betting or participating in any gambling activity, including the operation of a gambling device, conducting a lottery or pool, or selling or buying a number slip or ticket, while on Government-owned or leased property or while on duty for the Government;
- (3) Consuming intoxicating beverages on Government-owned or leased property, or transporting such beverages in Government-owned or leased vehicles, or using such beverages at any time or place to the extent that it adversely affects performance of official duties;
- (4) Lending funds at usurious interest rates;
- (5) Provoking or harassing other employees, or making unwarranted criticism or accusations against other employees;
- (6) Monitoring or recording, or authorizing or permitting others under their administrative control to monitor or record, telephone conversations for the purpose of taking a verbatim transcript of all or part of the conversation, unless such monitoring or recording is agreed to in advance by all participants in the conversation;
- (7) Utilizing a mechanical or electronic device to monitor or record non-telephone conversations, unless such monitoring or recording is agreed to in advance by all participants in the conversation;

(8) Soliciting, making collections, canvassing for the sale of any article, or distributing or posting literature, advertising matter, or any other graphic matter, in any space occupied by the Department, except as authorized in writing by the Director of Personnel;

(9) Soliciting money from, or selling tickets to, persons outside the Government for the benefit of any organization of the Department;

(10) Taking any action which might prejudice the Government's interest in a criminal or civil case;

(11) Giving aid or assistance, other than in the discharge of official duties, to any claimant in prosecuting any claim against the United States;

(12) Distributing through the Department's mail and messenger service, or otherwise distributing or posting, in any space occupied by the Department, any circulars, flyers, announcements, pictures, or other graphic matter, etc., that:

- (i) Directly or indirectly attack or adversely reflect on the integrity of any official, officer or employee of any branch of the Government; or
- (ii) Directly or indirectly condemn or criticize the policies of any Government department or agency.

##### § 0.735-12 Gifts, entertainment, and favors.

(a) Except as provided in paragraphs (b) and (c) of this section, an employee shall not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, loan, unusual discount, or any other thing of monetary value from a person who:

- (1) Has, or is seeking to obtain, contractual or other business or financial relations with the Department;
- (2) Conducts operations or activities that are regulated by the Department; or
- (3) Has interests that may be substantially affected by the performance or nonperformance of his duty.

(b) The restrictions in paragraph (a) of this section do not prohibit:

- (1) Acceptance of any of the usual courtesies in an obvious family or personal relationship (such as those between the employee and his parents, spouse, children, or close personal friends) when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;
- (2) Acceptance of loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home mortgage loans;
- (3) Acceptance of unsolicited advertising or promotional material, such as pens, pencils, note pads, calendars, and other things of nominal value; and
- (4) The exchange of usual social courtesies which are wholly free of any embarrassing or improper implications.

(c) An employee shall not solicit a contribution from another employee for a gift to an official superior, make a donation as a gift to an official superior, or accept a gift from an employee receiving less pay than himself (5 U.S.C. 7351).

However, this paragraph does not prohibit the voluntary giving or acceptance of a gift of nominal value or donation in a nominal amount made on a special occasion such as marriage, illness, or retirement.

(d) An employee shall not accept a gift, present, decoration, or other thing from a foreign government unless authorized by Congress as provided in 5 U.S.C. 7342.

(e) Neither this section nor § 0.735-13(a) precludes an employee from receipt of bona fide reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this part for which no Government payment or reimbursement is made. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under agency orders when reimbursement is proscribed by Decision B-128527 of the Comptroller General dated March 7, 1967 (46 Comp. Gen. 689).

##### § 0.735-13 Outside employment and activities.

(a) An employee shall not engage in any outside employment or other outside activity not compatible with the full and proper discharge of the duties and responsibilities of his Government employment, whether on his own behalf, or for private individuals, firms, companies, institutions, or State or local governments. Incompatible activities include but are not limited to:

(1) Outside employment or activity which may result in, or create the appearance of, a conflict of interests;

(2) Outside employment or activities which tend to impair an employee's physical or mental capacity to perform his Government duties in an acceptable manner, or prevent him from rendering full-time service to the Government;

(3) Outside work or activity which may be construed by the public to be official acts of the Department, or of a nature closely paralleling the work of the Department;

(4) Outside work or activity which involves participation in a commercially sponsored broadcast, or which relates to a written discussion of policies or official work of the Department, unless authorized in advance by the Office of Information;

(5) Outside work or activity which involves permission, or the appearance of permission, to use an employee's name in the advertising of organizations commercializing the results of research conducted by the Department, regardless of any merits which such enterprises may appear to possess.

(6) Outside work or activity which may involve the use of information secured as the result of employment in the Department and to the detriment of the public service; and

(7) Any outside work or activity which may tend to bring criticism on, or cause embarrassment to, the Department.

(b) Employees are specifically prohibited from acting as the agent of a foreign principal registered under the Foreign Agent's Registration Act (18 U.S.C. 219).

(c) No employee, whether in a duty or nonduty status, shall accept employment, with or without compensation, from any foreign government, corporation, partnership, or individual without written prior approval from his Agency Head.

(d) It is the policy of the Department to grant permission to an employee to teach, lecture, or write, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service, provided:

(1) Prior written authorization is obtained from the Agency Head;

(2) Such teaching, lecturing, or writing is not performed at or for any educational institution or other organization that discriminates because of race, creed, color, or national origin in the admission or subsequent treatment of students;

(3) Such teaching, lecturing, or writing is not dependent on information obtained as a result of his employment with the Department, except when that information has been made available to the general public or when the Agency Head gives specific authorization for the use of nonpublic information in the public interest; and

(4) Such teaching, lecturing, or writing is not otherwise incompatible with the provisions of this part.

(e) Articles prepared officially are the property of the Government, and authors thereof may not accept payment for such articles published in outside journals, magazines, or newspapers.

(f) Employees may not accept honoraria for addresses on radio or television or other appearances performed as part of their official duties.

(g) No employee, except a special Government employee, shall accept compensation for services as consultant or advisor to any organization, public or private, in any manner which draws upon the experience, competence, or professional standing acquired or enhanced by or through his position in this Department unless he has received permission from his Agency Head. A special Government employee shall not use his employment with the Department for a purpose that is, or gives the appearance of being, motivated by the desire for private gain for himself or another.

#### § 0.735-14 Conflict of interest.

(a) The following prohibitions apply to both a regular employee and a special Government employee:

(1) He may not have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his responsibilities and duties as a Federal employee.

(2) He may not engage in, directly or indirectly, a financial transaction relying upon information obtained through his employment.

(3) He may not participate directly or indirectly in any transaction concerning the purchase or sale of corporate stocks or bonds, commodities, or other property for speculative purposes if such action might tend to interfere with the proper and impartial performance of his duties or bring discredit upon the Department.

(4) If he is concerned in any way with the administration of acts regulating trading in commodities for future delivery, programs for the purchase or sale of commodities, price support programs, commodity loan programs, or other programs which directly affect market prices of agricultural commodities, he may not directly or indirectly speculate in any agricultural commodity.

(5) He may not, after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and in which he participated personally and substantially for the Government (18 U.S.C. 207(a)).

(6) He may not, for 1 year after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and which was within the boundaries of his official responsibility during the last year of his Government service (18 U.S.C. 207(b)).

(7) Except as permitted by paragraphs (b) and (c) of this section, he may not participate personally and substantially as a Government officer or employee, through decision, approval, disapproval, recommendation, the rendering of advice, investigation, or otherwise, in a judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter in which, to his knowledge, he, his spouse, minor child, partner, organization in which he is serving as officer, director, trustee, partner, or employee, or any person or organization with whom he is negotiating or has any arrangement concerning prospective employment, has a financial interest (18 U.S.C. 208(a)).

(b) The prohibition in paragraph (a) (7) of this section shall not apply if the employee first advises his Agency Head or the Director of Personnel of the nature and circumstances of the particular Government matter involved and makes full disclosure of the financial interest and receives in advance a written determination made by the Agency Head or the Director of Personnel that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from the employee. Authority to make such written determinations may not be redelegated by the Agency Head or the Director of Personnel.

(c) The following types of interests, except where otherwise prohibited by statute or regulation, are exempted from the prohibition in paragraph (a) (7) and the requirements of paragraph (b) of this section as being too remote or too inconsequential to affect the integrity of an employee's services to the Government:

(1) Any holding in a widely held mutual fund or regulated investment company which does not specialize in a particular industry or commodity and as to which the employee has no managerial control or directorship.

(2) Ownership of shares of common or preferred stock, corporate bonds, or other corporate securities, if the aggregate value of the holdings in any single corporation or enterprise is less than \$5,000 and is less than 1 percent of the value of the outstanding stock, bonds, or other securities of that corporation or enterprise, and as to which the employee has no managerial control or directorship.

(d) The following prohibitions apply only to a regular employee:

(1) He may not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest (18 U.S.C. 203 and 205).

(2) He may not receive any salary, or supplementation of his Government salary, from a private source as compensation for his services to the Government (18 U.S.C. 209).

(e) The following prohibitions apply only to a special Government employee:

(1) He may not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest and in which he has at any time participated personally and substantially for the Government (18 U.S.C. 203 and 205).

(f) This section does not preclude an employee from:

(1) Acting without compensation, and if not inconsistent with the faithful performance of his duties, as agent or attorney for any person who is the subject of disciplinary, loyalty, or other personnel administration proceedings in connection with those proceedings;

(2) Giving testimony under oath or making statements required to be made under penalty for perjury or contempt; or

(3) Having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government, provided it is not prohibited by law, Executive Order 11222, 5 CFR Part 735, this part, or agency regulations supplementing this part.

## RULES AND REGULATIONS

(g) This section does not purport to paraphrase the restrictions contained in 18 U.S.C., Chapter 11. The omission of a restriction in no way relieves an employee of the legal effect of such restriction.

#### § 0.735-15 Attendance and leave.

(a) Employees must observe designated duty hours and be punctual in reporting for work and returning from lunch periods. Tardiness can result in employees being placed in a nonpay status or in a charge against annual or compensatory leave in multiples of 1 hour or remedial action.

(b) Employees normally must obtain advance authorization for absence from duty. Where absence from duty results from illness or an emergency, employees are required to notify their supervisor or other appropriate person as soon as possible. When an employee fails to properly notify his supervisor absence may be charged as an unauthorized absence. It also may result in remedial action.

(c) Sick leave is to be used by employees only when they are incapacitated from duty because of sickness or injury, when they need to obtain medical, dental, or optical examination or treatment, when they are subject to quarantine imposed by local health authorities, or when they are required to give care to a member of their immediate family who has a contagious disease.

#### § 0.735-16 Use of Government property, facilities, and services.

(a) Employees are prohibited from directly or indirectly using, or allowing the use of, Government property, facilities, or services of any kind, including those leased to or otherwise paid for by the Government, for other than officially approved activities. Employees have a positive duty to conserve and protect Government property.

(b) Personal property offered for sale by the Department may be purchased by employees only when the sale of such property is based upon competitive bids, provided that no purchase may be made, either directly or indirectly, by the employee who was formerly accountable for the property, who formerly used the property, or who was in any way connected with its condemnation, declaration as excess, or sale, except:

(1) Surplus perishable products may be sold to employees at the best price obtainable in quantities not exceeding the needs of their immediate households.

(2) Special clothing and other articles or personal equipment purchased for the exclusive use of and fitted to an individual employee may, when not otherwise usable by the Department and in all respects surplus to the needs of the Government, be sold to such employee at the best price obtainable in the event of his separation from the Service or permanent assignment to duties not requiring such clothing or equipment.

#### § 0.735-17 Use of vehicles.

(a) An employee who wilfully uses or authorizes the use of a Government-

owned or leased passenger motor vehicle or aircraft for other than official purposes shall be suspended for 1 month or removed from office in accordance with 31 U.S.C. 638a(c) (2).

(b) An employee who wilfully uses or authorizes the use of a Government-owned or leased motor vehicle other than passenger carrying for other than official purposes, is subject to disciplinary action up to and including removal.

(c) An employee shall not store Government-owned or leased motor vehicles in or near his private residence or use such vehicles for transportation between his residence and place of employment unless such storage or use shall have been specifically authorized by the Secretary or another official to whom such authority has been delegated.

#### § 0.735-18 Indebtedness.

(a) Employees who fail to pay their just financial obligations in a timely and proper manner will be subject to such disciplinary action as the Agency Head or his designee considers appropriate. For the purpose of this section, "just financial obligations" are those acknowledged by the employee, reduced to judgment by a court, or confirmed by a final administrative determination of a unit of the Federal, State, or local government. A "proper and timely manner" means in a manner which the Agency Head or his designee determines does not, under the circumstances, reflect adversely on the Department as his employer.

(b) In cases where a legal judgment exists against the employee, the employee concerned will be required to satisfy the judgment within a reasonable period of time unless he can arrange to have it modified or set aside.

(c) When an employee is the subject of a complaint for failure to pay taxes or other debts that are the subject of a final administrative determination by a unit of the Federal, State, or local government, he shall be advised of the complaint and told to make payment arrangements satisfactory with that unit of government.

(d) When an employee is the subject of a letter of complaint from a creditor who does not hold a legal judgment, the Agency Head or his designee shall determine whether the employee acknowledges the debt and call the provisions of this section to the employee's attention. Subsequent action, if any, will be taken in accord with the facts of the case and the provisions of this section.

#### § 0.735-19 Political activity.

A Federal employee other than an officer exempted by 5 U.S.C. 7324(d) may not take an active part in political management or in a political campaign. He may not solicit or receive any assessment, subscription, or contribution for any political purpose from an officer or employee of the Government. Whatever the employee may not do directly, he may not do indirectly or through an agent, officer, or employee chosen by him or subject to his control.

#### § 0.735-20 Use, protection, and release of information.

(a) An employee is prohibited from using or giving information acquired through his official position, prior to its release to the general public, to advance the interests of himself, his family, associates, or friends, or any other person or enterprise.

(d) Unauthorized, premature disclosure of information which might influence or affect the market value of any product of the soil grown within the United States, or of information which by law or rule of the Department is required to be withheld from publication until a fixed time is punishable by fine and imprisonment.

(e) The subject matter of public hearings with respect to the proposed issuance of an order, regulation or other administrative determination, after the close of the hearing and prior to issuance by the Secretary of the order, regulation, or other administrative determination shall not be discussed with any interested person or with any representative of an interested person without written permission of the Secretary. However, this shall not preclude an employee who has been assigned to or has supervision over a proceeding from discussing with interested persons or their representatives matters of procedure in connection with such proceeding.

(f) Official mail shall be safeguarded from indiscriminate publication. It is prohibited to use or to quote in whole or in part any letters from the White House to this Department.

(g) Information concerning inventions and patent applications may be revealed only for official purposes. Employee inventors and employees who handle or obtain information concerning inventions of employee inventors or concerning any other inventions in which the Department may have an interest shall not reveal such information prior to the issuance of the patent, except for official purposes.

(h) The release of any list of names of employees of the Department of political purposes or for purposes of commercial solicitation is prohibited.

(i) It is prohibited to release lists of names of farmers, businessmen, persons, organizations, or firms that may be available in the Department directly or indirectly to any person, firm or association if such lists will be used for solicitation purposes, or such lists directly or indirectly provide information which customarily would not be released to the

public by the person from whom the Department obtained it. Exceptions shall not be made unless authorized by the Director of Information, and it is clear that the public interest will be served and there will be negligible public expense or interruption of work. A request for a Department list must state the purpose for which the list will be used. Lists of manufacturers, dealers, breeders, etc., should not be furnished so as to imply that the Department endorses certain firms to the possible detriment of others or that the lists necessarily include all dealers of a certain line.

**§ 0.735-21 Activities with regard to farm organizations.**

(a) Department employees shall refrain from participating actively in meetings and in other activities concerned with the establishment of general or specialized farm organizations, or with recruiting members for existing organizations such as the national, regional, State, and local organizations of the National Grange, the American Farm Bureau Federation, the National Farmers Organization, the Farmers' Union, the National Association of Soil Conservation Districts, the National Rural Electric Cooperative Association, the National Council of Farmer Cooperatives and Breed and Commodity Organizations. Failure to respond to requests for information or to appear as a

witness in an official proceeding may result in disciplinary penalty.

(d) Agency officials have the authority to transfer and reassign employees within their respective jurisdictions whenever necessary to meet operational needs. Employees have an obligation to the Department to accept transfers and changes in assignment. Failure to accept a transfer or reassignment may result in the separation of the employee.

Each special Government employee shall keep his statement of employment and financial interests current throughout his employment with the Department by the submission of supplementary statements.

**§ 0.735-42 Review of statements and determination of conflicting interests.**

(a) The Director of Personnel is responsible for the review of, and determinations on, those statements submitted directly to him pursuant to § 0.735-34(b). The responsibility for an initial review and determination may be delegated to the Chief, Security and Employee Conduct Division, Office of Personnel, and to staff members of that Division. Final determinations in cases

involving substantial conflict questions shall be made only by the Director of Personnel, and he shall set criteria identifying the types of cases which must be referred to him for final determination.

(b) Agency Heads are responsible for the review of, and determinations on, those statements submitted to an Agency official. This responsibility may be delegated, subject to the following restrictions:

(1) Responsibility for an initial review and determination may be delegated only to responsible Agency officials who the Agency Head has determined have sufficient experience, judgment, and understanding of the conflict of interest problem to properly carry out such responsibility.

(2) Responsibility for final determinations in cases involving substantial conflict questions may be delegated only to Associate, Deputy, and Assistant Agency Heads, except that in the Forest Service, such responsibility may be delegated to Regional Foresters, Station Directors, and Area Directors. The Agency Head shall set criteria identifying the types of cases which must be referred to such officials for final determination.

(c) Delegations of review and determination responsibility must be in writing from the Director of Personnel or the Agency Head, as appropriate.

(d) The Director of Personnel shall issue general guidelines covering the review of statements, recognizing possible conflicts or the appearance thereof, obtaining additional information, resolving conflict situations, documentation, and remedial action. Agencies shall supplement these with more specific guidelines applicable to the particular Agency. A copy of both the general and the specific guidelines shall be furnished to each employee to whom review and determination responsibility has been delegated.

(e) Whenever a question of a conflict or the appearance of conflict arises, a written determination must be made. The basis of the determination must also be documented in writing. The employee must be advised in writing of the determination, and, if the determination involves a change in duties or disqualification for a particular assignment, a copy of the determination should be furnished to the employee's immediate supervisor. Where affirmative action by the employee is required, a report of his compliance shall be obtained and made a part of the record.

(f) If a determination cannot be made at the Agency level, the case shall be referred to the Director of Personnel. If the Director of Personnel cannot make a determination, he shall refer the case to the Department Counselor for his determination or referral to the Secretary for determination. The record shall include copies of all pertinent documents and a written statement from each referring official setting forth his recommendation as to a final determination and the reasons therefor.

(g) Before a final determination requiring any remedial action is made, the employee concerned shall be given an opportunity to explain the conflict or appearance thereof and to offer any suggestions he may wish as to how the matter might be resolved. If an employee feels that the final determination will cause him undue hardship, he may request a review and modification by forwarding to the Director of Personnel a written statement setting forth all the facts and circumstances in support of his request and any alternative solution which he thinks appropriate.

(h) If the final determination requires positive action on the part of the employee, he shall take such action as soon as possible and advise the determining official when he has done so. Failure to take a required action within a reasonable time may result in disciplinary action.

**§ 0.735-43 Protection of employees' statements.**

(a) The statements of employment and financial interests, and supplements thereto, required by or pursuant to the regulations in this part shall be held in confidence and afforded adequate physical security. No information as to the contents thereof shall be disclosed except to the head of the employing Agency and such other persons as may be designated custodians or reviewers of such reports unless specific authorization has been obtained from the Department Counselor. An official, custodian, reviewer, or other employee having possession of a statement of employment and financial interests shall not allow access to, or allow information to be disclosed from the statement except to carry out the purposes of this Subpart C.

(b) Information from a statement of employment and financial interests shall not be disclosed outside of the Department except as the Civil Service Commission or the Secretary of Agriculture may determine for good cause shown.

(c) Reports shall be separately maintained by the officials designated as custodians for such reports and shall not be made a part of the official personnel folders.

(d) Regardless of the means or manner of transmission, when these reports leave the physical custody of the employee or a designated reviewer, they shall be enclosed in a double sealed envelope. The inner envelope shall be marked: "For Official Use Only," "Contains AD-392 (or AD-392-A)," as appropriate, and "To Be Opened By Addressee Only."

These amendments were approved by the Civil Service Commission on September 15, 1970, and are effective on publication in the FEDERAL REGISTER.

**Limitation of Shipments**

*Findings.* (a) Pursuant to Marketing Agreement No. 144 and Order No. 971 (7 CFR Part 971), regulating the handling of lettuce grown in the Lower Rio Grande Valley in South Texas (Cameron, Hidalgo, Starr, and Willacy Counties), effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and upon the basis of the recommendation and information submitted by the South Texas Lettuce Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments hereinafter set forth will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, or engage in public rule making procedure, and that good cause exists for not postponing the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (2) compliance with this amendment will not require any special preparations on the part of handlers, (3) information regarding the committee's recommendation has been made available to producers and handlers in the production area, and (4) this amendment relieves the restriction that no person may package lettuce on Sunday, January 10, 1971.

Regulation, as amended:

In § 971.311 (35 F.R. 16360, 18261) the second sentence of the introductory paragraph is hereby amended to read as follows:

[Docket No. 70-EA-118; Amdt. 39-1142]

**PART 39—AIRWORTHINESS DIRECTIVES**

**Air Cruisers Co. Life Rafts**

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to certain liferaft models of Air Cruisers Co.

There have been reports of failures of the subject liferafts to fully inflate resulting from leakage in the O-ring area of the inflation valves due to corrosion. Since this deficiency can exist or develop in the rafts of similar design, an airworthiness directive is being issued which will require inspection and replacement of the valves where necessary.

Since a situation exists, requiring expeditious adoption of the rule, notice and public procedure herein are impractical and the rule may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

AIR CRUISERS CO. LIFE RAFTS. Applies to Air Cruisers Co., Division of Garrett Corp., Life Raft Models 12D11751-7, 12D11751-8, and 18D23350-5. Compliance required as indicated.

To prevent loss of pressure in the inflation bottles on the rafts, accomplish the following:

(a) Within 100 hours in service after the effective date of this AD, but not later than 100 hours in service since the last pressure check of the cylinder and valve assembly, unless the modification described in subparagraph (1) or (2) below has been accomplished, perform a pressure check of the cylinder and valve assembly. P/Ns 24C17382-1 and 24C17382-2. When pressure measures less than 2,600 p.s.i.g. in the former, or less than 2,000 p.s.i.g. in the latter, both at 70° F., or an equivalent pressure at other temperatures, before return to service, accomplish the following:

Disassemble the inflation valve assembly, P/N 24D29261-1, and inspect for corrosion in the O-ring areas.

1. If no corrosion is found, replace the O-rings, in accordance with Air Cruisers Co. Service Bulletin 111-70-1, dated December 18, 1970.

2. If corrosion is found, either:

(i) Strip and alodine the valve body, and replace the O-rings as described in paragraph (a) (1), or

(ii) Replace the valve with P/N 24D29261-2, modified in accordance with Air Cruisers Co. Service Bulletin 111-70-1, dated December 18, 1970.

(b) For those assemblies which have been modified in accordance with paragraph (a) (1) or (a) (2) (i) prior to the effective date of this AD, repeat the procedure described in para. (a) within 1,800 hours in service after the last inspection.

(c) Following the initial inspection pursuant to this AD, and until the modification described in paragraph (a) (2) (ii) is accomplished:

1. For assemblies which did not demonstrate a pressure drop, repeat the procedure of paragraph (a) every 100 hours in service thereafter.

2. For assemblies which did demonstrate a pressure drop and which were modified pursuant to paragraphs (a) (1) or (a) (2) (i), reinspect every 1,800 hours in service thereafter.

This amendment is effective January 14, 1971.

**PART 39—AIRWORTHINESS DIRECTIVES**

**Piper Aircraft**

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Piper PA-31 type aircraft.

There have been reports of shorts in the battery system which caused the electrolyte to boil. The fumes resulting from the heating entered the overboard battery drains and upon being exhausted were drawn into the cabin because of the proximity of the drains to the cabin air intakes. Since this deficiency could develop or exist in aircraft of the same

type design, an airworthiness directive is being issued which will require relocation of the battery drain.

Since the foregoing requires expeditious adoption of this rule, notice and public procedure herein are impractical and the rule may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

**PIPER AIRCRAFT.** Applies to Model PA-31 and PA-31-300 S/Nos. 31-2 to 31-591.

Compliance required within the next 100 hours time in service after the effective date of this AD, unless already accomplished.

To prevent the hazards associated with toxic fumes from the battery being drawn into the cabin, accomplish the following:

(a) Relocate the battery drain in accordance with Piper Service Bulletin No. 325 dated November 10, 1970, or equivalent method approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

This amendment is effective January 14, 1971.

## PART 39—AIRWORTHINESS DIRECTIVES

### Pratt & Whitney Aircraft Engines

The Federal Aviation Administration is amending § 39.13 of Part 13 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Pratt & Whitney type JT4A aircraft engines.

There have been reports of failures of the 12th stage compressor rotor discs on the JT4A aircraft engine. Since this is a deficiency which can develop on other aircraft engines of the same type design, an airworthiness directive is being issued which will require removal of certain numbered discs. Because of the nature of the deficiency, this airworthiness directive was transmitted to all owners of affected aircraft by telegram under date of December 10, 1970. Since the same urgency exists, the rule may be made effective without notice and public procedure and in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

a. With 5,000 cycles or more in service within the next 25 cycles in service after the effective date of this AD replace the suspect serial number disc.

b. With 5,000 cycles or less in service prior to the accumulation of 5,025 cycles in service replace the suspect serial number disc.

(2) Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the compliance time.

This airworthiness directive is effective January 14, 1971 and was effective as to all recipients of the telegram dated December 10, 1970, which contained this airworthiness directive.

## PART 39—AIRWORTHINESS DIRECTIVES

### Sikorsky Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 68-20-8 applicable to Sikorsky S61 type helicopters.

Subsequent to the promulgation of AD 68-20-8, the Administrator has determined, through industrial experience, that the repetitive inspection required in paragraph D may be relaxed from 200 hours to 1,200 hours. It is also intended to correct paragraph C to clarify the intent that the test must be performed prior to the next flight which utilizes the automatic flight control system.

Since the foregoing amendments are relaxatory and clarifying in nature, notice and public procedure hereon are unnecessary and the rule may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), AD 68-20-8, § 39.13 of Part 39 of the Federal Aviation Regulations is amended as follows:

1. Amend paragraph C so as to insert the words "After the effective date of this AD as amended and prior to the next AFCS Flight, if not already accomplished \* \* \*" before the word "with".

2. Amend paragraph D so as to delete the numbers "200" where they appear, and insert in lieu thereof "1,200"; delete in Section D.1. "B-1 through B-5 inclusive" and insert in lieu thereof "B-5".

This amendment is effective January 14, 1971.

(Sec. 313(a), 601 and 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on December 31, 1970.

## Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### PART 20—FROZEN DESSERTS

**Ice Cream Identity Standard; Calcium Carbonate and Magnesium Carbonate as Optional Ingredients**

In the matter of amending the identity standard for ice cream (21 CFR 20.1) to list calcium carbonate and magnesium carbonate as optional ingredients:

A notice of proposed rulemaking in the above-identified matter was published in the FEDERAL REGISTER of August 27, 1970 (35 F.R. 13667), based on a

petition filed by the Food Adjuncts Association, Inc., 4804 Moorland Lane, Washington, DC 20014. In response to the notice, one comment was received from a frozen dessert ingredient supplier favoring the proposed change.

On the basis of the information submitted in the petition, the comment received, and other relevant information, the Commissioner of Food and Drugs concludes that it will promote honesty and fair dealing in the interest of consumers to adopt the proposed amendment.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): It is ordered, That § 20.1(f) (8) (ii) be revised to read as follows:

§ 20.1 Ice cream; identity; label statement of optional ingredients.

\* \* \*

(f) \* \* \*

(8) \* \* \*

(ii) Calcium oxide, magnesium oxide, calcium hydroxide, magnesium hydroxide, calcium carbonate, magnesium carbonate, or any combination of two or more of these; but the total quantity of the solids of such ingredients is not more than 0.04 percent of the weight of the finished ice cream.

\* \* \*

Due to cross-references, this amendment of the standard for ice cream (§ 20.1), upon becoming effective, will make the subject mineral salts permitted ingredients also of frozen custard (§ 20.2) and ice milk (§ 20.3).

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-62, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing and such objections must be supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in six copies.

**Effective date.** This order shall become effective 60 days after its date of publication in the FEDERAL REGISTER, except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be given by publication in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055, as amended, 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371)

Dated: December 31, 1970.

## PART 121—FOOD ADDITIVES

### Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

#### PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

##### Spectinomycin Dihydrochloride Pentahydrate Soluble Powder

The Commissioner of Food and Drugs has evaluated a supplemental new animal-drug application (38-661V) filed by Amdal Co., Division of Abbott Laboratories, regarding the safe and effective use of spectinomycin dihydrochloride pentahydrate soluble powder in the drinking water of floor-raised broiler chickens for increasing the rate of weight gain and improving feed efficiency. The supplemental application is approved.

This order also provides for recodification of the existing regulation concerning said drug from Part 121 to Part 135c in accordance with § 3.517 (21 CFR 3.517).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)), in accordance with § 3.517, and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135c are amended as follows:

#### § 121.329 [Amended]

1. Section 121.329 *Spectinomycin* is deleted from Part 121.

2. Part 135c is amended by adding the following new section:

#### § 135c.32 Spectinomycin dihydrochloride pentahydrate soluble powder.

(a) **Specifications.** The spectinomycin dihydrochloride pentahydrate used in manufacturing the drug is the antibiotic substance produced by growth of *Streptomyces flavoperniculus* (var. Abbott) or the same antibiotic substance produced by any other means.

(b) **Sponsor.** Amdal Co., Division of Abbott Laboratories, Abbott Park, North Chicago, Ill. 60064.

(c) **Special considerations.** The quantities of spectinomycin cited in this sec-

tion refer to the equivalent weight of base activity for the drug.

(d) **Related tolerances.** See § 135g.24 of this chapter.

(e) **Conditions of use.** (1) It is administered in the drinking water of growing chickens at 2 grams of spectinomycin per gallon of water as the only source of drinking water for the first 3 days of life and for 1 day following each vaccination. It is administered as an aid in the prevention or control of losses due to CRD associated with *M. gallisepticum* (PPLO). Do not administer to laying chickens. Do not administer within 5 days of slaughter.

(2) It is administered in the drinking water of floor-raised broiler chickens at 0.5 gram of spectinomycin per gallon of water as the only source of drinking water for the first 3 days of life and for 1 day following each vaccination. It is administered for increased rate of weight gain and improved feed efficiency. Do not administer to laying chickens. Do not administer within 5 days of slaughter.

**Effective date.** This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

## PART 121—FOOD ADDITIVES

### Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

#### PAPER AND PAPERBOARD

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP OB2490) filed by The Dow Chemical Co., Midland, Mich. 48640, and other relevant material, concludes that § 121.2526 of the food additive regulations should be amended to provide for the safe use of poly(acrylamide-acrylic acid-N-(dimethylaminomethyl)-acrylamide) as a drainage aid and retention aid employed prior to the sheet-forming operation in the manufacture of paper and paperboard intended for use in contact with fatty foods.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2526(a) (5) is amended by alphabetically inserting in the list of substances a new item, as follows:

# Proposed Rule Making

## DEPARTMENT OF THE TREASURY

Bureau of Customs

[ 19 CFR Parts 10, 13, 16, 25, 54 ]

### MERCHANDISE WHOSE CLASSIFICATION IS DEPENDENT UPON PROOF OF ACTUAL USE

#### Notice of Proposed Rule Making

General Headnote 10(e)(ii), Tariff Schedules of the United States, sets forth conditions under which importers may be entitled to duty free entry or entry at reduced rates for imported merchandise classifiable under a tariff provision controlled by actual use of the merchandise in the United States. These conditions include a 3-year time limitation in which to prove actual use.

It has been decided to revise the Customs Regulations to delete the repetitious requirements for specified merchandise, and to substitute new provisions relating to proof of actual use which will be generally applicable when classification is controlled by actual use.

Accordingly, notice is hereby given that under authority of R.S. 251 (19 U.S.C. 66), General Headnote 11, Tariff Schedules of the United States (19 U.S.C. 1202, Gen. Hdnte. 11), and section 624, Tariff Act of 1930 (19 U.S.C. 1624), it is proposed to amend the Customs Regulations as follows:

#### PART 10—ARTICLES CONDITIONALLY FREE; SUBJECT TO A REDUCED RATE, ETC.

1. Part 10 is amended by adding at the end thereof a center heading and new §§ 10.131 through 10.139 reading as follows:

#### RATE OF DUTY DEPENDENT UPON ACTUAL USE

##### § 10.131 Circumstances in which applicable.

The provisions of §§ 10.131 through 10.139 are applicable in those circumstances in which the rate of duty applicable to merchandise is dependent upon actual use, unless there is a specific provision in this part or Part 54 of this chapter which governs the treatment of the merchandise.

##### § 10.132 Examples of actual use provisions.

Examples of actual use provisions found in the Tariff Schedules of the United States (19 U.S.C. 1202) which will be subject to the provisions of §§ 10.131 through 10.139 are:

(a) Rice \* \* \* Patna, cleaned, for use in the manufacture of canned soups (Item 131.37, Tariff Schedules of the United States);

(b) Woven bolting cloths, wholly of silk, imported to be used for milling pur-

poses, and marked so as to be fit for such purposes (Item 375.25, Tariff Schedules of the United States); and

(c) Limestone, crude, broken, or crushed, when imported to be used in the manufacture of fertilizer (Item 480.05, Tariff Schedules of the United States).

##### § 10.133 Conditions required to be met.

When the tariff classification of any article is controlled by its actual use in the United States, three conditions must be met in order to qualify for free entry or a lower rate of duty unless the language of the particular item of the Tariff Schedules of the United States applicable to the merchandise specifies other conditions. The conditions are that:

(a) Such use is intended at the time of importation.

(b) The article is so used.

(c) Proof of use is furnished within 3 years after the date the article is entered or withdrawn from warehouse for consumption.

(77A Stat. 14; 19 U.S.C. 1202 (Gen. Hdnte. 10(e)(ii))

##### § 10.134 Declaration of intent.

A showing of intent by the importer as to the actual use of imported merchandise shall be made by filing at the time of filing the entry for consumption or for warehouse a declaration as to the intended use of the merchandise, or by entering the proper item number of an actual use provision of the Tariff Schedules of the United States and the reduced or free rate of duty on the entry form. Entry made under an actual use provision of the Tariff Schedules of the United States may be construed as a declaration that the merchandise is entered to be used for the purpose stated in the schedules, provided the district director is satisfied the merchandise will be so used. However, the district director shall require a written declaration to be filed if he is not satisfied that merchandise entered under an actual use provision will be used for the purposes stated in the schedules.

##### § 10.135 Deposit of duties.

When the requirement of § 10.134 has been met the merchandise may be entered or withdrawn from warehouse for consumption without deposit of duty when proof of use will result in free entry, or with deposit of duty at the lower rate when proof of use will result in a lower rate of duty. For bond requirements, see section 8.23 of this chapter.

##### § 10.136 Suspension of liquidation.

Liquidation of an entry covering merchandise for which a declaration of intent has been made pursuant to § 10.134 and any required deposit of duties made, shall be suspended until proof of use is furnished or the 3-year period allowed for production thereof has expired.

##### § 10.137 Records of use.

(a) *Maintenance by importer.* The importer shall maintain accurate and detailed records showing the use or other disposition of the imported merchandise. The burden shall be on the importer to keep records so that the claim of actual use can be readily established.

(b) *Retention of records.* The importer shall retain records of use or disposition for a period of 3 years from the date of liquidation of the entry.

(c) *Examination of records.* The records required to be kept by paragraph (a) shall be available at all times for examination and inspection by an authorized Customs officer.

##### § 10.138 Proof of use.

Within 3 years from the date of entry or withdrawal from warehouse for consumption, the importer shall submit in duplicate in support of his claim for free entry or for a reduced rate of duty a certificate executed by (1) the superintendent or manager of the manufacturing plant, or (2) the individual end-user or other person having knowledge of the actual use of the imported article. The certificate shall include a description of the processing in sufficient detail to show that the use contemplated by the law has actually taken place. A blanket certificate covering all purchases of a given type of merchandise from a particular importer during a given period, or all such purchases with specified exceptions, may be accepted for this purpose, provided the importer shall furnish a statement showing in detail, in such manner as to be readily identified with each entry, the merchandise which he sold to such manufacturer or end-user during such period.

##### § 10.139 Liquidation.

(a) *In general.* Upon satisfactory proof of timely use of the merchandise for the purpose specified by law, the entry shall be liquidated free of duty or at the lower rate of duty specified by law. When such proof is not filed within 3 years from the date of entry or withdrawal from warehouse for consumption, the entry shall be liquidated dutiable under the appropriate item of the Tariff Schedules of the United States.

(b) *Exception for blackstrap molasses.* An entry covering blackstrap molasses, as hereinafter defined, may be accepted and liquidated with duty at a lower rate upon compliance with section 10.134. Blackstrap molasses is "final" molasses practically free from sugar crystals, containing not over 58 percent total sugars and having a ratio of

$$\frac{\text{total sugars} \times 100}{\text{Brix}}$$

not in excess of 71. In the event of doubt, an ash determination may be made. An

ash content of not less than 7 percent indicates a blackstrap molasses within the meaning of this paragraph.

Section 10.88 and footnote 79 appended thereto are deleted.

Section 10.100 and footnotes 92a and 92b appended thereto are deleted.

## POST OFFICE DEPARTMENT

[ 39 CFR Part 124 ]

### SEXUALLY ORIENTED ADVERTISEMENTS

#### Notice of Proposed Rule Making

Section 3010(a)' of title 39, United States Code, as enacted by the Postal Reorganization Act (Public Law 91-375, approved August 12, 1970) provides that any person who mails or causes to be mailed any sexually oriented advertisement shall place on the envelope or cover thereof his name and address as the sender thereof and such mark or notice as the Postal Service may prescribe. Section 3010(d) defines sexually oriented advertisement. The Department implemented section 3010(a) by issuing regulations as § 125.9 of Title 39, Code of Federal Regulations, on pages 18743 and 18744 of the daily issue of December 10, 1970.

The Department now intends to implement subsections (b) and (c) of section 3010. These subsections relate basically to the right of citizens not to receive sexually oriented advertisements if that is their wish. The proposed regulations are set forth below. It should be noted that the regulations incorporate, without substantive change, the regulations implementing section 3010(a), cited above.

Interested persons who desire to do so may submit written data, views, and arguments concerning these proposed regulations to the Assistant General Counsel, Mailability Division, Post Office Department, Washington, D.C. 20260, at any time prior to January 20, 1971. After consideration of all comments received, the Department will then promulgate the final regulations decided upon, to be effective February 1, 1971, which is the effective date of section 3010 of title 39.

Accordingly, the Department proposes the following regulations, to be effective February 1, 1971.

In Part 124 new § 124.9 is added, reading as follows:

#### § 124.9 Sexually oriented advertisements.

(a) *General.* (1) Section 3010 of title 39, United States Code, provides a means by which a member of the public can act to protect himself and his minor children from receiving unsolicited sexually oriented advertisements through the mails. This section permits any person

who is served by the U.S. Postal Service to file with the Postal Service a statement that he does not desire to receive any sexually oriented advertisements through the mails. Any mailer who sends that person an unsolicited sexually oriented advertisement more than 30 days after the date on which the Postal Service adds his name to its reference list of those who desire this protection, may be subject to both civil and criminal sanctions, as provided in 39 U.S.C. 3011 and in 18 U.S.C. 1735-37.

(2) 39 U.S.C. 3010(d) defines a "sexually oriented advertisement" as "any advertisement that depicts, in actual or simulated form, or explicitly describes, in a predominantly sexual context, human genitalia, any act of natural or unnatural sexual intercourse, any act of sadism or masochism, or any other erotic subject directly related to the foregoing." It further provides that "material otherwise within the definition of this subsection shall be deemed not to constitute a sexually oriented advertisement if it constitutes only a small and insignificant part of the whole of a single catalog, book, periodical or other work the remainder of which is not primarily devoted to sexual matters."

(3) The responsibility for ensuring that no unsolicited sexually oriented advertisement is sent through the mails to any person in violation of section 3010 is placed by that section on the mailers of sexually oriented advertisements. No provision of Postal Service regulations may be used to place this responsibility upon the Postal Service. For example, the privilege of a sender to recall a piece of mail provided by section 153.5 of this chapter may not be so used, although it may be used in good faith to request the recall of a specific piece of mail inadvertently deposited in the mails addressed to a person on the List.

(b) *Application for listing.* (1) A person may invoke the protection of section 3010 by completing and filing, with any postmaster or other designated Postal Service representative, Part II of Application for Listing Pursuant to 39 U.S.C. 3010, PS Form 2201, which may be obtained at any post office. Form 2201 bears a preprinted identifying number in two places: On the instruction portion (Part I) and on the application portion (Part II). After filing the application portion the customer should retain the instruction portion and should use the identifying number in any subsequent communication with the Postal Service concerning his application.

(2) A person may file on his own behalf and on behalf of any of his children under the age of 19 years who reside with him or are under his care, custody, supervision. An authorized officer, agent, fiduciary, surviving spouse or other representative, may file in behalf of a corporation, firm, association, estate, or deceased or incompetent addressee.

(3) Each postmaster shall transmit all applications received at his post office to the Office of ADP Management, Finance and Administration Department, U.S. Postal Service, Box 677, Washington,

DC 20044 on a daily basis. The applications shall be packaged so that they will not be subject to folding, bending or other mutilation or damage.

(4) The Office of ADP Management, Finance and Administration Department, as soon as practical after receipt of a Form 2201, shall place the customer's name and address, the names and addresses of his minor children if any are included on the application, on the Postal Service's List (hereafter, "List") of persons desiring not to receive sexually oriented advertising. The 30-day period provided by section 3010(b) starts on the day that the person's name and address are placed on the List.

(5) A person's name and address will be retained on the List for a period of 5 years, unless a request for revocation is sooner filed by that person. A person must file a new application at the end of the 5-year period if he desires to continue his name on the List. The names and addresses of minor children will be automatically removed from the List when they attain 19 years of age. A minor must file an original application in his own behalf if he desires to continue his name on the List after reaching 19 years of age.

(6) The filing of a single application results in the listing of a single address for the person filing. A person who receives mail at more than one address and who wishes the protection of section 3010 at more than one address should file a separate application for each. A person who moves must file a new application to receive the protection of section 3010 at his new address. The submission of Change of Address Order PS Form 3575 will not be effective for this purpose. It would not be a violation of section 3010 to mail a sexually oriented advertisement to a person at an address other than that which is shown for him on the List. It would be a violation, however, to mail such an advertisement to him at the address shown for him even though he has moved from that address.

(c) *Revocation of listing.* A person, at any time, may request the removal of his name and address, or that of one or more of his minor children, from the List by so notifying his postmaster. It would not be evidence of a violation of section 3010 if a person received a sexually oriented advertisement in the mails on or after the date he gives such notice.

(d) *Availability of Postal Service List.* (1) Copies of the List and periodic amendments thereto shall be available to any person by annual subscription. A subscription year runs from January 1 through December 31. Requests for information on subscriptions and requests for subscriptions should be submitted to the Director, Office of Mail Classification, Finance & Administration Department, U.S. Postal Service, Washington, DC 20260. Requests for subscriptions must be accompanied by a check for \$5,000 payable to the U.S. Postal Service. This money will be applied to the subscription price at the end of the year,

and any excess will be refunded to the subscriber. The annual subscription price will be established following each subscription year, and will represent the cost, prorated among the subscribers, of compiling, processing, printing, and distributing the List. In no event will the annual subscription price exceed \$10,000. The List will be in the form of a reduced reproduction of computer print outs. For an additional fee a computer tape of the listings can also be secured in conjunction with subscriptions to the List. Details of the List format may be obtained from the Director, Office of Mail Classification.

(2) This List may be used by mailers only to protect persons whose names appear on it from receiving unwanted sexually oriented advertisements through the mails. No person, including a subscriber to the List, may use the List for any other purpose, and no person may sell, lease, rent, lend, exchange or license another to use this List for any purpose whatsoever, including its use by another to remove names from a list of persons to whom sexually oriented advertisements will be sent. No person may use the List or a copy thereof for the purpose of preparing mailing or other lists for sale, lease, rent, loan, exchange or use by another. Violators are subject to criminal prosecution.

(e) *Marking of envelope.* Section 3010 (a) authorizes and directs the Postal Service to provide a mark or notice which must be placed on the envelope or cover of any sexually oriented advertisement sent through the mails, together with the name and address of the sender. The following provisions are in implementation of this authority and direction:

(1) Any person who mails or causes to be mailed any sexually oriented advertisement shall place in the upper left-hand corner of the exterior face of the mail piece, whereon appear the addressee designation and postmarks, postage stamps, or indicia thereof, the sender's name and address. In the right-hand portion below the postage stamp, or indicia thereof, and above the addressee designation, there shall be placed "Sexually Oriented Ad."

(2) The name and address of the sender and the legend required by subparagraph (1) of this paragraph shall be printed in a size type no smaller than that used for any other word on the envelope or other cover, and in no event smaller than 12-point type. Such type shall be no less conspicuous than the boldest type used to print other words on the exterior face of the mail piece.

(3) The contrast between the background and printing of the sender's name and address and the contrast between the background and the printing of the prescribed notice shall be no less than the contrast between the background and printing of any other words on the envelope or other wrapper.

(4) A clear space no less than one-quarter of an inch wide shall surround the sender's name and address and the notice, separating them from anything

else appearing on the exterior face of the mail piece.

(f) *Violations.* (1) The following is a partial list of conduct which may violate 39 U.S.C. section 3010 or U.S.C. section 1735:

(i) The mailing of a sexually oriented advertisement in an envelope or other wrapper which does not bear the name and address of the sender and the legend "sexually oriented ad" as provided by paragraph (e) of this section;

(ii) The mailing directly or indirectly of a sexually oriented advertisement to a person whose name and address have been on the List for more than 30 days;

(iii) The sale, loan, lease, or licensing the use of the List or a copy thereof in whole or in part;

(iv) The use of the List or a copy of it in whole or in part for any other purpose than to insure that no mailings of sexually oriented advertisements are made to persons on the List.

(2) A person who wishes to report that he has received an unsolicited sexually oriented advertisement after his name and address have been on the List for more than 30 days should submit the entire mail piece, including the envelope or other wrapper, to any postmaster. The mail piece must be opened by the addressee. When submitting the mail piece, the addressee must endorse the envelope or other wrapper in substance as follows: "I received this mail piece on (date)", and sign the statement. He should also state the identifying number appearing on his application if it is known to him. See paragraph (b)(1) of this section. The postmaster of the installation to which the mail piece is submitted shall send it without delay to the Postal Inspector in Charge of the Division which has geographical jurisdiction over the address of the mailer.

(3) If a violation of paragraph (d) of this section comes to the attention of any postal officer or employee, he shall, through his postmaster, report such violation to the postal inspector whose territory includes his postal installation. Mail of a mailer in violation or apparent violation of section 3010 may not be refused for dispatch or delivery without a proper court order. Appropriate instructions to postmasters will be issued in the event that a court order is obtained.

(4) A customer who wishes to ascertain whether his name has been placed on the List should direct his inquiry to the Director, Office of Mail Classification, Finance and Administration Department, U.S. Postal Service, Washington, DC 20260.

(g) *Disposal of Original Form PS 2201.* (1) It is anticipated that because of the possible volume of filings pursuant to paragraph (b)(1) of this section it may be an undue burden upon the Postal Service to retain the original executed application forms. If it is determined by the Assistant Postmaster General (Finance and Administration Department) to be such a burden, each application shall be photographed on

microfilm as soon as the information required for compliance with paragraph (b) (4) of this section has been obtained and shall thereafter be destroyed.

DAVID A. NELSON,  
General Counsel.

## GENERAL RULES OF PRACTICE (DISCOVERY RULES)

### Notice of Proposed Rule Making

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 23d day of December 1970.

This general investigation and rule-making proceeding is directed to a thorough examination and evaluation of our existing discovery procedures and techniques, and certain revisions of those discovery practices proposed by the Association of Interstate Commerce Commission Practitioners, the Committee on Practice and Procedure of the Motor Carrier Lawyers' Association, and the Administrative Conference of the United States. The recognized aim of discovery in an administrative agency proceeding is to ensure that each party to the proceeding has access to all pertinent, unprivileged information prior to the actual presentation of the evidence, in order to enable all parties to participate more fairly and effectively in the administrative decision-making process. We intend here to consider the needs of all parties—industry and consumer representatives alike—for more effective and efficient discovery devices than those now specified in our Rules of Practice, with a view toward adopting those discovery and other related procedures that will best aid in developing the fairest and most complete record that may be compiled in each case coming before this Commission for decision.

During the past several years, we have become increasingly concerned with the efficacy of our present rules and regulations (49 CFR Part 1100), concerning discovery as reproduced in Appendix A to this notice.<sup>1</sup> While specific discovery tools such as depositions (49 CFR 1100.57 through 1100.67) and prehearing conferences (49 CFR 1100.68) are provided in our present Rules of Practice, any participant in any of our proceedings may petition this Commission for the prescription of appropriate discovery procedures tailored to the special requirements of the particular case (49 CFR 1100.102). The expense, delay, and inconvenience of deposition procedures, the impracticality of, and costs entailed in scheduling prehearing conferences in the many cases annually presented to this Commission, and the uncertainties involved in the general petition procedures—all seem to discourage efforts by parties having genuine interests in proceedings pending before this Commission to avail themselves of these discovery techniques. As a result, recourse to such procedures has been sought only in rare instances.

<sup>1</sup> Filed as part of the original document.

This Commission's regulatory responsibility is exceptionally broad, and we are daily confronted with a sweeping variety of cases ranging from a relatively simple motor carrier licensing case to a complex rail merger or general rate increase proceeding, and affecting the public interest and the National Transportation Policy to varying degrees. Certain of these proceedings lend themselves readily to the scheduling of prehearing conferences and the use of specific discovery devices. Others do not warrant the burden and expense entailed in such procedures. To fit all these cases into one unyielding judicialized mold would, in our view, be contrary to sound administration and inimical to fair, efficient, and expeditious decision-making.

To cite but one example, which represents by far the greatest majority of formal proceedings presented to this Commission—those involving applications for motor carrier operating authority—we have found it necessary to require full disclosure by applicants of the nature and identity of supporting testimony upon which they intend to rely. See Schaeffer and Schaeffer Extension—New York City, 106 M.C.C. 100 (1967), as modified in Carl Subler Trucking, Inc., Extension—Canned Goods, 111 M.C.C. 624 (1970), and Carolina Transit Lines, Com. Car. Applic., 111 M.C.C. 630 (1970). Protests filed by those opposing the applications also must contain more information in greater detail. (49 CFR 1100.247) Additionally, in individual proceedings involving applications for motor carrier authority and in rulemaking proceedings, we have specified explicit procedures to require a greater degree of disclosure by all parties concerned. Disclosure, however, concerns only that information within the possession of a party which the party itself desires or is required by our regulations to be made known, and does not generally permit the latitude for information-gathering which may be possible pursuant to appropriate discovery procedures.

Each of the many and varied proceedings presented for decision should, we think, be governed by procedures which will facilitate and make effective the participation of Government and private interests alike, including the actual suppliers and customers of transportation services as well as the ultimate consumer, and yet do so without increased expense or delay. We are especially concerned that consumer groups may be unable, in appropriate proceedings, properly to prepare their presentations, and thus have adequate representation, due either to a lack of sufficient information now discoverable or to the absence of proper procedures to facilitate discovery. We must thus accommodate the needs of the interested parties and this Commission for greater and more reliable information with the essential requirements for a just, speedy, and inexpensive determination of the issues presented. In this process of accommodation, we are convinced that the

door to the administrative decisional process must always remain open to those who cannot afford to hire talented counsel, for these are the very persons whom administrative agencies such as this Commission were initially created to hear without the aid of a go-between. Fair and expeditious decisions and economical procedures are prerequisites to sound regulation.

A number of studies of administrative discovery methods have been made by this Commission, the Administrative Conference of the United States, the Motor Carrier Lawyers' Association, and the Association of Interstate Commerce Commission Practitioners. As a result of these studies, and in order to consider certain recommendations made therein, we are, by this notice and order, instituting this general investigation and rulemaking proceeding to examine our existing discovery procedures, and to consider the desirability of either modifying the existing rules or replacing them with entirely new, and broadened discovery measures.

The comments of the Administrative Conference of the United States concerning existing administrative-agency discovery methods and general recommendations for change are set forth in Appendix B; and proposed discovery rules to replace those now in force as recommended by the Motor Carrier Lawyers' Association and the Association of Interstate Commerce Commission Practitioners are respectively reproduced in Appendices C and D to this notice and order. The Administrative Conference recommends that each agency adopt certain minimum standards for discovery in adjudicatory proceeding subject to 5 U.S.C. 554, 556, and 557 (the Administrative Procedure Act). In general, the rules prepared by the Practitioners' association would permit unlimited discovery in certain classes of cases in much the same manner as the Federal Rules of Civil Procedure, while those advanced by the Motor Carrier Lawyers' Association would require affirmative action by this Commission prior to discovery.

In order to develop a complete record upon which the necessary determinations may here be made, the procedures in this rulemaking proceeding will permit any interested person or persons to present written comments, suggestions, or proposals concerning the matters under consideration. Parties should be cognizant that any discovery procedures, if not drawn and administered in the most careful manner, can result in creating added expenses and increased procedural delays, instead of accomplishing their intended purposes. As a consequence, persons electing to participate in this proceeding are requested to address themselves to the following questions in addition to any additional suggestions or comments they may wish to present:

(1) Is there a need to modify this Commission's existing discovery procedures in whole or in part?

(2) Are the recommended minimum standards set forth by the Administrative Conference properly applicable and

necessary to proceedings before this Commission? How can we best accommodate the needs of the parties and this Commission for information with the requirement for a just, speedy, and inexpensive determination of the issues?

(3) Should any broadened discovery rules be made applicable to all cases, to certain specified classes of cases, or only to specific cases individually designated by appropriate order?

(4) With respect to the proposals of the Motor Carrier Lawyers' Association and the Interstate Commerce Commission Practitioners Association, should these proposed rules be adopted, rejected, or modified; and, as so recommended, do they contain significant omissions or duplications? Are the proposed rules as simple and clear as possible?

(5) What safeguards are necessary to prevent abuse of such discovery procedures as may be adopted? Are the opportunities for delays or the burdens on the parties too great?

The proposals and comments set forth in this notice and order are merely representative of the matters and things here under investigation, and are not intended to be all-inclusive; they should not be construed as limiting in any manner the scope of this proceeding which is designed to enable this Commission to take all action with respect to discovery and other related procedures as the facts and circumstances developed on the record in this proceeding may justify or require.

Upon consideration of the above-described matters, and good cause appearing therefor:

*It is ordered*, That a proceeding be, and it is hereby, instituted under the authority of the Interstate Commerce Act (49 U.S.C. § 1 et seq.), including more specifically sections 12 and 17, and pursuant to 5 U.S.C. 553 and 559 (the Administrative Procedure Act), to determine whether the revised rules set forth in the appendices to this notice, or other rules or regulations of similar effect should be adopted to establish new (or modify existing) discovery procedures, and for the purpose of taking such other and further action as the facts and circumstances may justify or require.

*It is further ordered*, That the Bureau of Enforcement of this Commission be, and it is hereby, authorized and directed to participate in this proceeding.

*It is further ordered*, That no oral hearings be scheduled for the taking of testimony in this proceeding unless a need therefor should later appear, but that any interested person may participate in this proceeding by submitting for consideration written statements of facts, views, arguments, and suggestions on the subjects mentioned above, or any other subjects pertinent to this proceeding.

*It is further ordered*, That any person intending to participate in this proceeding by submitting initial statements or reply statements shall notify this Commission, by filing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before February 1, 1971,

the original and one copy of a statement of his intention to participate; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties to this proceeding, upon whom copies of all statements must be filed; and that at the time of the service of the service list this Commission will fix the time within which initial statements and reply statements must be filed.

*And it is further ordered*, That a copy of this order be mailed to the Governor of every State and to the Public Utilities Commissions or Boards of every State; that a copy be posted in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and that a copy be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission.

Secretary.

#### APPENDIX B—RECOMMENDATIONS OF THE ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

##### Recommendation 21: Discovery in Agency Adjudication

Prehearing discovery in agency adjudication insures that the parties to the proceeding have access to all relevant, unprivileged information prior to the hearing. Its primary objectives include the more expeditious conduct of the hearing itself, the encouragement of settlement between the parties, and greater fairness in adjudication. Agencies that conduct adjudicatory proceedings generally enjoy broad investigatory powers, and fairness requires that private parties have equal access to all relevant, unprivileged information at some point prior to the hearing.

##### RECOMMENDATION

It is therefore recommended that each agency recognize the following minimum standards for discovery in adjudicatory proceedings subject to sections 5, 7, and 8 of the Administrative Procedure Act, now codified as 5 U.S.C. 554, 556, and 557. Individual agencies may permit additional discovery where appropriate and may tailor the recommended standards to meet the needs of particular types of proceedings where special or less elaborate discovery procedures will accomplish the same basic objectives or where the protective measures here recommended will be inadequate to achieve the ends sought. Each agency should undertake to train its hearing examiners in the application of the rules it promulgates to implement these standards. This training should draw upon the experience of other agencies, the Federal Courts, private practitioners, and bar associations.

The recommended minimum standards include the following procedures:

1. *Prehearing conferences.* The presiding officer should have the authority to hold one or more prehearing conferences during the course of the proceeding on his own motion or at the request of a party to the proceeding. The presiding officer should normally hold at least one prehearing conference in proceedings where the issues are complex or where it appears likely that the hearing will last a considerable period of time. The presiding officer at a prehearing conference should have the authority to direct the parties to exchange their evidentiary exhibits and witness lists prior to the hearing. Where

good cause exists, the parties should have the right at any time to amend, by deletion or supplementation, their evidentiary exhibits and witness lists.

2. *Depositions.* A party to the proceeding should be able to take depositions of witnesses upon oral examination or written questions for purposes of discovering relevant, unprivileged information, subject to the following conditions:

(1) The taking of depositions should normally be deferred until there has been at least one prehearing conference;

(2) The party seeking to take a deposition should apply to the presiding officer for an order to do so;

(3) The party seeking to take a deposition should serve copies of the application on the other party or parties to the proceeding, who should be given an opportunity, along with the deponent, to notify the presiding officer of any objections to the taking of the deposition;

(4) The presiding officer should not grant an application to take a deposition if he finds that the taking of the deposition would result in undue delay;

(5) The presiding officer should otherwise grant an application to take a deposition unless he finds that there is not good cause for doing so; and

(6) The deposing of an agency employee should only be allowed upon an order of the presiding officer based on a specific finding that the party applying to take the deposition is seeking significant, unprivileged information not discoverable by alternative means. Any such order should be subject to an interlocutory appeal to the agency.

An order to take a deposition should be enforceable through the issuance of a subpoena ad testificandum.

3. *Witnesses.*—(a) *Prior statements.* At the prehearing conference or at some other reasonable time prior to the hearing the attorney or employee appearing on behalf of the agency in the proceeding should make available to the other parties to the proceeding any prior statements of agency witnesses which are in the possession of the agency or obtainable by it from any other Federal agency and which relate to the subject matter of the expected testimony. "Statement" is defined to include only a written statement signed or adopted by the witness or a recording or transcription which is a substantially verbatim recital of an oral statement made by the witness to an agent of the Federal government.

(b) *Narrative summaries of expected testimony.* At the prehearing conference or at some other reasonable time prior to the hearing each party to the proceeding should make available to the other parties to the proceeding the names of the witnesses he expects to call and a narrative summary of their expected testimony. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to designate any prior statement or statements of an agency witness which he makes available to the other parties under Recommendation 3(a) as all or part of the narrative summary of that witness's expected testimony. Where good cause exists, the parties should have the right at any time to amend, by deletion or supplementation, the list of names of the witnesses they plan to call and the narrative summaries of the expected testimony of those witnesses.

4. *Written interrogatories to parties.*—(a) *Availability.* A party to the proceeding should be able to serve written interrogatories upon any other party for purposes of discovering relevant, unprivileged information. A party served with interrogatories should be able, before he must answer the interrogatories, to apply to the presiding officer for the holding of a prehearing conference for the

mutual exchange of evidentiary exhibits and other information. Each interrogatory which requests information not previously supplied at a prehearing conference should be answered separately and fully in writing under oath, unless it is objected to, in which event the reasons for the objection should be stated in lieu of an answer. The party upon whom the interrogatories have been served should serve a copy of the answers and objections within a reasonable time upon the party submitting the interrogatories. The party submitting the interrogatories may move the presiding officer for an order compelling an answer to an interrogatory or interrogatories to which there has been an objection or other failure to answer.

(b) *Interrogatories directed to the agency.* Each agency should designate an appropriate official on whom other parties to the proceeding may serve written interrogatories directed to the agency. That official should arrange for agency personnel with knowledge of the facts to answer and sign the interrogatories on behalf of the agency. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to make and sign objections to interrogatories served upon the agency. Interrogatories directed to the agency which seek information available only from the agency head, member, or members should only be allowed upon an order of the agency based on a specific finding that the interrogating party is seeking significant unprivileged information not discoverable by alternative means.

5. *Requests for admissions.*—(a) *Availability.* A party to the proceeding should be able to serve upon any other party a written request for the admission, for purposes of the pending proceeding, of any relevant, unprivileged facts, including the genuineness of any document described in the request.

(b) *Requests directed to the agency.* Each agency should designate an appropriate official on whom other parties to the proceeding may serve requests for admissions directed to the agency. That official should arrange for agency personnel with knowledge of the facts to respond to the requests on behalf of the agency. The attorney or employee appearing on behalf of the agency in the proceeding should have the authority to make and sign objections to requests for admissions served upon the agency. Requests directed to the agency which seek admissions obtainable only from the agency head, member or members should only be allowed upon an order of the agency based on a specific finding that the requesting party is seeking significant, unprivileged information not discoverable by alternative means.

6. *Production of documents and tangible things.*—(a) *From nonparties.* A party to the proceeding should be able to obtain in accordance with agency rules a subpoena duces tecum requiring a nonparty to produce relevant designated documents and tangible things, not privileged, at a prehearing conference, at the taking of the nonparty's deposition, or at any other specific time and place designated by the issuing officer.

(b) *From parties.* A party to the proceeding should be able to apply to the presiding officer for an order requiring any other party to produce and to make available for inspection, copying or photographing, at a prehearing conference or other specific time and place, any designated documents and tangible things, not privileged, which constitute or contain relevant evidence. The party seeking production should serve copies of the application on the other party or parties to the proceeding, who should be given an opportunity to notify the presiding officer of any objections. The presiding officer should order the production of such designated documents and tangible things unless

he finds that there is not good cause for doing so.

(c) *From the agency.* For the purposes of Recommendation 6, the agency conducting the proceeding should be considered a party to the proceeding whether or not the agency staff participates as a party to the proceeding.

7. *Role of the presiding officer.*—(a) *Control over discovery.* The presiding officer should have the authority to impose schedules on the parties to the proceeding specifying the periods of time during which the parties may pursue each means of discovery available to them under the rules of the agency. Such schedules and time periods should be set with a view to accelerating disposition of the case to the fullest extent consistent with fairness.

(b) *Interlocutory appeals.* Except as provided by Recommendation 2(6) above, an interlocutory appeal from a ruling of the presiding officer on discovery should be allowed only upon certification by the presiding officer that the ruling involves an important question of law or policy which should be resolved at that time by the appropriate review authority. Notwithstanding the presiding officer's certification, the review authority should have the authority to dismiss summarily the interlocutory appeal if it should appear that the certification was improvident. An interlocutory appeal should not result in a stay of the proceedings except in extraordinary circumstances.

8. *Protective orders.*—(a) *Authority of presiding officer in general.* The presiding officer should have the authority, upon motion by a party or by the person from whom discovery is sought, and for good cause shown, to make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following: (1) That the discovery not be had; (2) that the discovery may be had only on specified terms and conditions, including a designation of the time or place; (3) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery; (4) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters; (5) that discovery be conducted with no one present except persons designated by the presiding officer; (6) that a deposition after being sealed be opened only by order of the presiding officer; (7) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way; (8) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the presiding officer.

(b) *Names of witnesses.* The presiding officer should have the authority upon motion by a party or other person, and for good cause shown, by order (a) to restrict or defer disclosure by a party of the name of a witness, a narrative summary of the expected testimony of a witness or, in the case of an agency witness, any prior statement of the witness, and (b) to prescribe other appropriate measures to protect a witness. Any party affected by any such action should have an adequate opportunity, once he learns the name of a witness and obtains the narrative summary of his expected testimony or, in the case of an agency witness, his prior statement or statements, to prepare for cross-examination and for the presentation of his case.

(c) *In camera proceedings.* The presiding officer should have the authority to permit a party or person seeking a protective order to make all or part of the showing of good cause in camera. A record should be made of such in camera proceedings. If the presid-

ing officer enters a protective order following a showing in camera, the record of such showing should be sealed and preserved and made available to the agency or court in the event of an appeal.

9. *Subpoenas.* The presiding officer should have the power to issue subpoenas ad testificandum and duces tecum at any time during the course of the proceeding. Agencies affected by these Recommendations that do not have the statutory authority to issue subpoenas should seek to obtain any necessary authority from the Congress.

#### APPENDIX C—RECOMMENDATIONS OF THE COMMITTEE ON PRACTICE AND PROCEDURE OF THE MOTOR CARRIERS LAWYERS' ASSOCIATION

The proposed rules have been drafted so that they might be incorporated into the Commission's present rules of practice in the following manner:

(1) The proposed rules may be physically substituted for present rules 57 through 67 and the present corresponding rules may be eliminated.

(2) The caption preceding rule 55 should be changed to read "Notice of Hearing; Subpoenas; Depositions; Discovery."

(3) Rule 102 should be amended by eliminating the parenthetical phrase "which relief shall be construed as including appropriate discovery procedures."

#### Rule 57—Discovery.

Parties may obtain discovery in any proceeding by serving written interrogatories in compliance with Rule 63 or by serving requests for admission in compliance with Rule 64. Discovery by deposition upon oral examination may be had only by order of the Commission issued pursuant to Rule 60 (a) (2), upon a showing of good cause in the petition requesting such an order. A showing of good cause supporting a request for an oral deposition for purposes of discovery must include a showing that preliminary discovery has been sought through written interrogatories and/or requests for admission or an explanation why preliminary discovery through such means was not attempted. If written interrogatories and/or requests for admission have been served prior to the filing of a petition for an order under Rule 60(a) (2), the required showing of good cause shall include an explanation why interrogatories and/or requests for admission already served have not provided adequate discovery. Discovery may also be had for production of documents or things or permission to enter on land or other property for inspection or other purposes as set forth in Rule 66.

#### Rule 58—Discovery; scope and protective orders.

(a) *Scope.* Unless otherwise ordered in accordance with these rules, parties may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the pending proceeding, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of any discoverable matter. It is not ground for objection that the information sought will be inadmissible as evidence or relates to the position and burden of proof of another party, if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

(b) *Protective orders.* Upon motion by any party, or by the person from whom discovery is sought, or by any person asserting an interest in the data, information or material sought to be discovered, and for good cause shown, any order which justice requires may be entered to protect a party or person from

annoyance, embarrassment, oppression, or undue burden or expense, or prevent the raising of issues untimely or inappropriate to the proceeding. Relief through a protective order may include one or more of the following: (1) That discovery not be had; (2) that discovery may be had only on specified terms and conditions, including a designation of the time or place; (3) that discovery be had only upon provision for indemnification to the party or person against whom discovery is sought; (4) that discovery may be had only by a method other than that selected by the party seeking discovery; (5) that certain matters not be inquired into, or that the scope of discovery be limited to certain matters; (6) that discovery be conducted with no one present except persons designated in the protective order; (7) that a deposition after being sealed be opened only by order of the Commission; (8) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way; (9) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened only by order of the Commission.

If the motion for a protective order is denied in whole or in part, an order may be entered, on such terms and conditions as are just, requiring any party or person to provide or permit discovery.

**Rule 59—Discovery; supplementation of responses and stipulations.**

(a) *Supplementation of Responses.* A person who has responded to a request for discovery with a response that was complete when made is under no duty to supplement his response to include information thereafter acquired, except as follows: (1) A person is under a duty seasonably to supplement his response with respect to any question directly addressed to (A) the identity and location of persons having knowledge of discoverable matters, and (B) the identity of each person expected to be called as an expert witness at the hearing and the subject matter on which he is expected to testify; (2) a person who knows or later learns that his response is incorrect is under a duty seasonably to correct the response; and (3) a duty to supplement responses may be imposed by order, agreement of the parties, or at any time prior to hearing or the submission of verified statements under modified procedure, through requests for supplementation of prior responses.

(b) *Stipulations regarding discovery.* Unless otherwise ordered, the parties may by written stipulation filed with the Commission (1) provide that depositions be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions, and (2) modify the procedures provided by these rules for other methods of discovery.

**Rule 60—Depositions.**

(a) *Purpose.* (1) The Commission will either upon its own initiative, or upon good cause shown by a party to the proceeding, issue an order to take the testimony of any person, including a party, by deposition upon oral examination for use as evidence. (2) The Commission may in accordance with Rule 57 issue an order to take the testimony of any person, including a party, by deposition upon oral examination for purposes of discovery, which may also include use of the deposition as evidence. The attendance of witnesses may be compelled by the use of subpoenas as provided in Rule 56.

(b) *Officer before whom taken.* Within the United States or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken

before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held. Within a foreign country a deposition may be taken before an officer or person designated by the Commission, or a person designated by written stipulation of all parties filed with the Commission.

(c) *When taken.* Unless special circumstances and good cause are shown, no deposition shall be taken within 10 days prior to the date assigned for commencement of hearing or the filing of opening statements of fact and argument under modified procedure, and when the deposition is taken in a foreign country it shall not be taken within 30 days prior to such dates.

(d) *Fees.* A witness whose deposition is taken pursuant to these rules and the officer taking same, unless he be employed by the Commission shall be entitled to the same fee paid for like service in the courts of the United States, which fee shall be paid by the party at whose instance the deposition is taken.

**Rule 61—Depositions; petitions and orders.**

(a) *Petitions.* A petition requesting an order to take a deposition and to produce documents and materials (1) shall be filed with due regard to the time periods specified in Rule 60(c); (2) shall be served upon all parties to the proceeding and upon the person sought to be deposed and/or the custodian of the documents or materials to be produced; (3) shall set forth the name and address of the witness, the place where, the time when, the name and office of the officer before whom, and the cause of reason why such deposition should be taken; and (4) shall specify with particularity the documents and materials which the deponent is requested to produce.

(b) *Order.* If the petition requesting an order to take a deposition is granted, which action may be taken without awaiting the possible filing of a reply, the Commission will serve upon the parties an order naming the witness whose deposition is to be taken, and specifying the time when, the place where, and the officer before whom the witness is to testify, but such time and place, and the officer before whom the deposition is to be taken, so specified in the Commission's order, may or may not be the same as set out in the petition.

(c) *Where depositions shall be taken.* Unless otherwise ordered or agreed to by stipulation, depositions shall be taken in the city or municipality wherein the office of deponent is located.

**Rule 62—Depositions; procedures.**

(a) *Examination.* Examination and cross-examination of witnesses shall proceed as permitted at a hearing. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections.

(b) *Motions to protect.* At any time during the taking of the deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the officer conducting the examination may be ordered to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition may be limited as provided in Rule 58(b). If the order made terminates the examination, it shall be resumed thereafter only if so ordered. Upon demand of the

objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order.

(c) *Recordation.* The officer before whom the deposition is to be taken shall observe the provisions respecting appearances (Rule 71(a)), and typographical specifications (Rule 15), put the witness on oath, and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise to record the evidence.

(d) *Signing.* When the testimony is fully transcribed or otherwise recorded the deposition of each witness shall be submitted to him for examination and shall be read to or by him unless such examination and reading are waived by the witness and the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness unless the parties by stipulation waive the signing or the witness is ill or can not be found or refuses to sign. If the deposition is not signed by the witness within 15 days the officer shall sign it and state thereon the fact of the waiver or of the illness or absence of the witness, or the fact of the refusal to sign, together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless, on a motion to suppress, it is otherwise found that the reasons given for the refusal to sign requires rejection of the deposition in whole or in part.

(e) *Attestation.* The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and that the officer is not of counsel or attorney for any of the parties, and that he is not interested in the event or the proceedings.

(f) *Return.* The officer shall securely seal the deposition in an envelope endorsed with sufficient information to identify the proceeding and marked "Deposition of (here insert name of witness)" and shall promptly send the original and one copy thereof together with the original and one copy of all exhibits, by registered mail to the Secretary of the Commission. A deposition to be offered in evidence must reach the Commission not later than 5 days before the date it is to be so offered.

(g) *Notice.* The party taking the deposition shall give prompt notice of its filing to all other parties.

(h) *Copies.* Upon payment of reasonable charges therefor, the officer before whom the deposition is taken shall furnish a copy of it to any interested party or to the deponent.

**Rule 63—Written interrogatories.**

(a) *Availability; procedures for use.* Any party may serve upon any person written interrogatories to be answered by the person served or, if the person served is a public or private corporation or a partnership or association, by any officer or agent, who shall furnish such information as is available to the person.

Each interrogatory shall be answered separately and fully in writing unless it is objected to, in which event the reasons for objection shall be stated in lieu of an answer. The answers are to be signed by the person making them and subscribed by an appropriate verification generally in the form prescribed in No. 6 of Appendix B to these rules. Objections are to be signed by the attorney making them. The person upon whom the interrogatories have been served

shall serve a copy of the answers and objections within a period designated by the party submitting the interrogatories, not less than 15 days after the service thereof.

(b) *Option to produce business records.* Where the answer to an interrogatory may be derived or ascertained from the business records of the person upon whom the interrogatory has been served or from an examination, audit or inspection of such business records, or from a compilation, abstract or summary based thereon, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the person served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

If information sought is contained in computer runs, punch cards or tapes which also contain privileged or proprietary information or information the disclosure of which is proscribed by the Interstate Commerce Act, it shall be a sufficient response under these rules, that the person upon whom the interrogatory has been served is willing to make available to and permit an independent professional organization not interested in the proceeding and paid by the party serving the interrogatory to extract from such runs punch cards or tapes the information sought in the interrogatory that is not privileged or proprietary information or information the disclosure of which is proscribed by the Interstate Commerce Act.

#### Rule 64—Request for admission.

(a) *Availability; procedures for use.* A party may serve upon any other party a written request for the admission, for purposes of the pending proceeding only, of the truth of any matters within the scope of Rule 58 (a) set forth in the request, including the genuineness of any documents described in the request. Copies of documents shall be served with the request unless they have been or are otherwise furnished or made available for inspection.

Each matter of which an admission is requested shall be separately set forth. The matter is admitted unless, within a period designated in the request, not less than 15 days after service thereof the party to whom the request is directed serves upon the party requesting the admission a written answer or objection addressed to the matter, signed by the party or by his attorney. If objection is made, the reasons therefor shall be stated. The answer shall specifically deny the matter or set forth in detail the reasons why the answering party can not truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party qualify his answer or deny only a part of the matter of which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or readily obtainable by him is insufficient to enable him to admit or deny. A party who considers that a matter of which an admission has been requested presents a genuine issue for hearing may not, on that ground alone, object to the request; he may deny the matter or set forth reasons why he can not admit or deny it.

(b) *Effect of admission.* Any matter admitted under this rule is conclusively established unless it is ordered that withdrawal or amendment of the admission will be per-

mitted. Any admission made by a party under this rule is for the purpose of the pending proceeding only and is not an admission by him for any other purpose nor may it be used against him in any other proceeding.

#### Rule 65—Depositions, request for admission and written interrogatories—inclusion in record.

At the oral hearing, or upon the submission of statements under modified procedure, depositions, requests for admission and written interrogatories may be offered in evidence by the party at whose instance they were taken. If not offered by such party, they may be offered in whole or in part by any other party. If only part of a deposition, request for admission or written interrogatory is offered in evidence by a party, any other party may require him to introduce all of it, which is relevant to the part introduced and any party may introduce any other parts. Such depositions, requests for admission and written interrogatories shall be admissible in evidence subject to such objections as to competency, relevancy, or materiality of the testimony as were noted at the time of their taking or are made at the time they are offered in evidence.

#### Rule 66—Production of documents and things and entry upon land for inspection and other purposes.

(a) *Scope.* Upon petition and if the Commission determines good cause is shown the Commission may issue an order and direct any party (1) to produce and permit the petitioning party to inspect any designated documents (including writings, drawings, graphs, charts, photographs, phonorecords, and other data compilations from which intelligence can be perceived, with or without the use of detection devices) or to inspect, test, or sample any tangible things which constitute or contain matters within the scope of Rule 58(a) and which are in the possession, custody or control of the party upon whom the order is served, but if the writings or data compilations (including computer runs, punch cards, and tapes) include privileged or proprietary information or information the disclosure of which is proscribed by the Interstate Commerce Act, such writings or data compilations need not be produced under this rule but may be provided pursuant to Rule 63(b); or (2) to permit, subject to appropriate liability releases, and safety and operating considerations, entry upon designated land or other property in the possession or control of the party upon whom the order is served for the purpose of inspection and measuring, surveying, photographing, testing, or sampling the property or any designated object or operation thereon, within the scope of Rule 58(a).

(b) *Procedure.* The petition shall set forth the items to be inspected either by individual item or by category, and describe each item and category with reasonable particularity. The petition shall specify a reasonable time, place and manner of making the inspection and performing related acts.

#### Rule 67—Failure to make discovery.

If a deponent fails to answer, or gives an evasive or incomplete answer to, a question propounded under Rule 62(a), or a person fails to answer, or gives evasive or incomplete answers to, written interrogatories served pursuant to Rule 63(a), the discovering party may apply for an order compelling an answer, by motion filed with the Commission and served on all parties and persons affected thereby. On matters relating to a deposition on oral examination, the proponent of the question may complete or adjourn the examination before he applies for an order.

INTERSTATE COMMERCE COMMISSION PROPOSED DISCOVERY RULES	
Rule 151—General provisions governing discovery.	

(a) *Discovery methods.* Parties may obtain discovery in any adversary proceeding which has been designated for oral hearing by one or more of the following methods, depositions upon oral examination or written questions; written interrogatories; production of documents or things or permission to enter upon land or other property, for inspection and other purposes; and requests for admission. Unless the presiding officer orders otherwise, the frequency of use of these methods is unlimited.

NOTE: (1) "Oral Hearing" includes modified procedure cases only to the extent that they may be subsequently at the request of a party assigned for oral hearing on all or part of the issues.

(2) An "adversary proceeding" means not only cases involving direct formal adversaries, but is to be broadly construed to include those cases where parties technically in the same posture, such as common respondents, have in fact adversary interest. If the matter is questioned, the presiding officer shall make the determination upon the basis of the facts of the particular case.

(b) *Presiding officer.* The term "presiding officer" as used in Rules 151-160 of this part shall mean "officer" as defined in Rule 5 of this part.

(c) *Scope of Discovery.* Unless otherwise ordered by the presiding officer in accordance with these rules, including orders entered after agreement of the parties or imposition of protective orders at prehearing conferences held pursuant to Rule 63, parties may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the pending proceeding, whether it relates to the claim or defense of any other party, including the existence, description, nature, custody, condition, and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of any discoverable matter. It is not ground for objection that the information sought will be inadmissible at the hearing if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

NOTE: (1) The purpose of this rule is to promote the efficient and expeditious conduct of discovery procedures and to encourage stipulations and agreements to enable the expeditious disposition of the proceeding.

(2) Under the rule, the issuance of an order is required by the presiding officer who can change the discovery procedure only through agreement between the parties or by protective order under Rule 151(d).

(d) *Protective orders.* Upon motion by any party, or by the person from whom discovery is sought, or by any person asserting an interest in the data, information or material sought to be discovered, and for good cause shown, the presiding officer may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, or prevent the raising of issues untimely or inappropriate to the proceeding, including one or more of the following: (1) That discovery not be had; (2) that the discovery may be had only on specified terms and conditions, including a designation of the time or place; (3) that discovery be had only upon provision for indemnification to the party or person against whom discovery is sought; (4) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery; (5) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters; (6) that discovery be conducted with no one present except persons designated by the presiding officer; (7) that a deposition after being sealed be opened only by order of the presiding officer; (8) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way; (9) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the presiding officer; (10) that no discovery will be permitted because the data, information, or material sought to be discovered are otherwise available.

If the motion for a protective order is denied in whole or in part, the presiding officer may, on such terms and conditions as are just, order that any party or person provide or permit discovery.

NOTE: The provision for indemnification in subsection (d) (3) should be construed to in-

clude reasonable expenses including attorney's fees in the case of a person other than a party.

(e) *Limitations on discovery from the Commission.* Discovery from the Commission shall be subject to the following further limitations:

(1) Any documents which are within the exemption provisions of § 552(a) (4) of title 5 U.S.C. as amended by Public Law 90-23.

(2) Staff memoranda, staff investigation reports, and statements in the Commission's possession by persons interviewed shall be considered privileged documents.

(3) The informer's privilege shall be construed broadly and shall encompass information which may lead to the disclosure of an informer's identity.

(4) Commission personnel may be questioned on oral deposition as to matters within their direct personal knowledge only. Other information, if not privileged, may be sought by other discovery procedures.

(f) *Sequence and timing of discovery.* Unless the presiding officer upon motion, for the convenience of parties and witnesses and in the interests of justice, orders otherwise, or the parties involved in the discovery agree otherwise, methods of discovery may be used in any sequence.

(g) *Supplementation of responses.* A party who has responded to a request for discovery with a response that was complete when made is under no duty to supplement his response to include information thereafter acquired, except as follows:

(1) A party is under a duty reasonably to supplement his response with respect to any question directly addressed to (A) the identity and location of persons having knowledge of discoverable matters, and (B) the identity of each person expected to be called as an expert witness at the hearing and the subject matter on which he is expected to testify.

(2) A party who knows or later learns that his response is incorrect is under a duty reasonably to correct the response.

(3) A duty to supplement responses may be imposed by order of the presiding officer, agreement of the parties, or at any time prior to hearing through requests for supplementation of prior responses.

(h) *Notices.* All notices affecting discovery matters shall appropriately identify the proceeding to which they relate, and two copies of every such notice shall be served on the Secretary of the Commission at the time they are served on the parties or persons from whom discovery is sought.

(i) *Officer before whom taken.* Within the United States or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held. Within a foreign country a deposition may be taken before an officer or person designated by the Commission.

(j) *Where depositions shall be taken.* Unless otherwise ordered by the presiding officer or agreed to by stipulation, depositions shall be taken in the city or municipality wherein the office of deponent is located.

COMMENT: The Commission's jurisdiction is nationwide, which distinguishes it from the several Federal courts for which the Federal rules were designed. If parties are permitted to require deponents to appear any place in the nation to suit the lawyers' convenience, discovery can easily constitute a device for harassment of deponents. The proposed rules would eliminate that problem.

Rule 152—*Stipulations regarding discovery procedure.*

Unless the presiding officer orders otherwise, the parties may by written stipulation

(1) provide that depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions, and (2) modify the procedures provided by these rules for other methods of discovery.

Rule 153—*Depositions upon oral examination.*

(a) *When depositions may be taken.* After commencement of the proceeding, any party may take the testimony of any person, including a party, by deposition upon oral examination. The attendance of witnesses may be compelled by the use of subpoena as provided in Rule 169.

(b) *Notice of examination: General requirements.* (1) A party desiring to take the deposition of any person upon oral examination shall give reasonable notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. If a subpoena duces tecum is to be served on the person to be examined, a designation of the materials to be produced thereunder shall be attached to or included in the notice.

(2) If a party taking a deposition wishes to have the testimony recorded by other than stenographic means, the notice shall specify the manner of recording, preserving, and filing the deposition. The presiding officer may require stenographic taking or make any other order to assure that the recorded testimony will be accurate and trustworthy. If requested by one of the parties, the testimony shall be transcribed at the expense of the requesting party.

(3) The notice to a party deponent may be accompanied by a request made in compliance with Rule 167 for the production of documents and tangible things at the taking of deposition.

(4) A party may in his notice name as the deponent a public or private corporation or a partnership or association and must designate with reasonable particularity the matters on which examination is requested. The organization so named shall designate one or more officers, directors, or managing agents, or other persons duly authorized and consenting to testify on its behalf. The persons so designated shall testify as to matters known or available to the organization. This subdivision (b) (4) does not preclude taking a deposition by any other procedure authorized in these rules.

(c) *Examination and cross-examination; record of examination; oath; objections.* Examination and cross-examination of witnesses may proceed as permitted at the hearing. The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by some one acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically or recorded by any other means designated in accordance with subdivision (b) (2) of this rule. If requested by one of the parties, the testimony shall be transcribed.

All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties may serve written questions on the party taking the deposition and require him to transmit them to the officer, who shall propound them to the witness and record the answers verbatim.

(d) *Motion to terminate or limit examination.* At any time during the taking of the deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the presiding officer may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in Rule 151(d). If the order made terminates the examination, it shall be resumed thereafter only upon the order of the presiding officer before whom the proceeding is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order.

(e) *Submission to witness; changes, signing.* When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon a deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness within 30 days of its submission to him, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under Rule 155(d) (4) the presiding officer holds that the reasons given for refusal to sign require rejection of the deposition in whole or in part.

(f) *Certification and filing by officer; exhibits; copies; notice of filing.* (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope endorsed with sufficient information to identify the proceeding and marked "Deposition of (here insert name of witness)" and shall promptly file it with the presiding officer or send it by registered mail to the Secretary of the Commission.

Documents and things, unless objection is made to their production for inspection during the examination of the witness, shall be marked for identification and annexed to and returned with the deposition, and may be inspected and copied by any party, except that (A) the person producing the materials may substitute copies to be marked for identification, if he affords to all parties fair opportunity to verify the copies by comparison with the originals, and (B) if the person producing the materials requests their return, the officer shall mark them, and the materials may then be used in the same manner as if annexed to and returned with the deposition.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

**Rule 154—Depositions of witnesses upon written questions.**

(a) *Serving questions; notice.* After a proceeding has been assigned for hearing, any party may take the testimony of any person,

including a party, by deposition upon written questions. The attendance of witnesses may be compelled by the use of subpoena as provided in Rule 160.

A party desiring to take a deposition upon written questions shall serve them upon every other party with a notice stating (1) the name and address of the person who is to answer them, if known, and if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs, and (2) the name or descriptive title and address of the officer before whom the deposition is to be taken. A deposition upon written questions may be taken of a public or private corporation or a partnership or association in accordance with the provisions of Rule 153(b) (4).

Within 20 days after the notice and written questions are served, a party may serve cross questions upon all other parties. Within 20 days after being served with cross questions, a party may serve redirect questions upon all other parties. The presiding officer may for cause shown enlarge or shorten the time.

(b) *Officer to take responses and prepare record.* A copy of the notice and copies of all questions served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by Rule 153 (c), (e), and (f), to take the testimony of the witness in response to the questions and to prepare, certify, and file of mail the deposition, attaching thereto the copy of the notice and the questions received by him.

(c) *Notice of filing.* When the deposition is filed the party taking it shall promptly give notice thereof to all other parties.

**Rule 155—Use of depositions in commission proceedings.**

(a) *Use of depositions.* At the hearing or in a pleading, any part or all of a deposition, so far as admissible under the rules of evidence applied as though the witness were then present and testifying, may be used against any party who was present or represented at the taking of the deposition or who had reasonable notice thereof, in accordance with any one of the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of deponent as a witness.

(2) The deposition of a party or of any one who at the time of taking the deposition was an officer, director, or managing agent, or a person designated under Rule 153(b) (4) or 154(a) to testify on behalf of a public or private corporation, partnership or association which is a party may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the presiding officer finds: (A) that the witness is dead; or (B) that the witness is at a greater distance than 100 miles from the place of hearing, or is out of the United States, unless it appears that the absence of the witness was procured by the party offering the deposition; or (C) that the witness is unable to attend or testify because of age, sickness, or infirmity; or (D) that the party offering the deposition has been unable to procure the attendance of the witness by subpoena; or (E) upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally in open hearing, to allow the deposition to be used.

(4) If only part of a deposition is offered in evidence by a party, an adverse party may require him to introduce all of it which is relevant to the part introduced, and any party may introduce any other parts.

Substitution of parties does not affect the right to use depositions previously taken; and, when a proceeding has been dismissed and another proceeding involving the same subject matter is afterward brought between the same parties or their representatives or successors in interest, all depositions lawfully taken and duly filed in the former proceeding may be used in the latter as if originally taken therefor.

(b) *Objections to admissibility.* Subject to the provisions of subdivision (d) (3) of this rule, objection may be made at the hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

(c) *Effect of taking or using depositions.* A party does not make a person his own witness for any purpose by taking his deposition. The introduction in evidence of the deposition or any part thereof for any purpose other than that of contradicting or impeaching the deponent makes the deponent the witness of the party introducing the deposition, but this shall not apply to the use by an adverse party of a deposition as described in subdivision (a) (2) of this rule. At the hearing any party may rebut any relevant evidence contained in a deposition whether introduced by him or by any other party.

(d) *Effect of errors and irregularities in depositions.*—(1) *As to notice.* All errors and irregularities in the notice for taking a deposition are waived unless written objection is promptly served upon the party giving the notice.

(2) *As to disqualification of officer.* Objection to taking a deposition because of disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(3) *As to taking of deposition.* (A) Objections to the competency of a witness or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(B) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of parties and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived unless seasonal objection thereto is made at the taking of the deposition.

(C) Objections to the form of written questions submitted under Rule 154 are waived unless served in writing upon the party propounding them within the time allowed for serving the succeeding cross or other questions and within 10 days after service of the last questions authorized.

(4) *As to completion and return of deposition.* Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, signed, certified, sealed, indorsed, transmitted, filed, or otherwise dealt with by the officer under Rules 153 and 154 are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been ascertained.

**Rule 156—Interrogatories to parties.**

(a) *Availability; procedures for use.* Any party may serve upon any other party written interrogatories to be answered by the party served or, if the party served is a public

or private corporation or a partnership or association, by any officer or agent, who shall furnish such information as is available to the party. Interrogatories may, without leave of the presiding officer, be served upon the party filing the initial pleading in an adversary proceeding and upon any other party with or after service or notice of the pleading upon that party.

Each interrogatory shall be answered separately and fully in writing under oath, unless it is objected to, in which event the reasons for objection shall be stated in lieu of an answer. The answers are to be signed by the person making them, and the objections signed by the attorney making them. The party upon whom the interrogatories have been served shall serve a copy of the answers and objections within a period designated by the party submitting the interrogatories, not less than 30 days after the service thereof or within such shorter or longer time as the presiding officer may allow. The party submitting the interrogatories may move for an order under Rule 159(a) with respect to any objection to or other failure to answer an interrogatory.

(b) *Scope; use at hearing.* Interrogatories may relate to any matters which can be inquired into under Rule 151(c), and the answers may be used to the extent permitted by the rules of evidence.

An interrogatory otherwise proper is not objectionable merely because an answer to the interrogatory involves an opinion, contention, or legal conclusion, but the presiding officer may order that such an interrogatory be answered at a later time, or after designated discovery has been completed, or at a prehearing conference.

(c) *Option to produce business records.* Where the answer to an interrogatory may be derived or ascertained from the business records of the party upon whom the interrogatory has been served or from an examination, audit or inspection of such business records, or from a compilation, abstract or summary based thereon, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the party served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

If information sought is contained in computer runs, punch cards or tapes which also contain privileged or proprietary information or information proscribed by the Interstate Commerce Act, it shall be a sufficient response under these rules, that the party upon whom the interrogatory has been served is willing to make available to and permit an independent professional organization not interested in the proceeding and paid by the party serving the interrogatory to extract from such runs, punch cards or tapes the information sought in the interrogatory that is not privileged or proprietary information or information proscribed by the Interstate Commerce Act.

**COMMENT:** Computer runs, punch cards and tapes prepared in the usual course of business can contain a large volume of information, including information which a party is not entitled to receive under these rules. It is frequently a time-consuming and expensive task to rework such data and generally the personnel and machines are limited because their expense is such that no organization can afford to carry any excess capacity. A party should not be denied the benefit of the alternative provided in Rule

156(c) merely because the runs, punch cards or tapes include information that must be protected. Thus, a tender of the runs, punch cards or tapes to an independent service organization such as IBM, of integrity and professionally able to program a separation of the data entitled to protection, should be sufficient to give a party upon whom an interrogatory has been served the benefit of the option provided in Rule 156(c).

**RULE 157—Production of documents and things and entry upon land for inspection and other purposes.**

(a) *Scope.* Any party may serve on any other party a request (1) to produce and permit the party making the request, or someone acting on his behalf, to inspect and copy, any designated documents (including writings, drawings, graphs, charts, photographs, phonorecords, and other data compilations from which intelligence can be perceived, with or without the use of detection devices) or to inspect and copy, test, or sample any tangible things which constitute or contain matters within the scope of Rule 151(c) and which are in the possession, custody or control of the party upon whom the request is served, but if the writings or data compilations (including computer runs, punch cards and tapes) includes privileged or proprietary information or information proscribed by the Interstate Commerce Act, such writings or data compilations need not be produced under this rule but may be provided pursuant to Rule 156(c); or (2) to permit, subject to appropriate liability releases, and safety and operating considerations, entry upon designated land or other property in the possession or control of the party upon whom the request is served for the purpose of inspection and measuring, surveying, photographing, testing, or sampling the property or any designated object or operation thereon, within the scope of Rule 151(c).

(b) *Procedure.* The request may, without leave of the presiding officer be served upon any party at any time after the proceeding has been designated for oral hearing subject to the qualification in Rule 151(f), but not after the hearing has begun. The request shall set forth the items to be inspected either by individual item or by category, and describe each item and category with reasonable particularity. The request shall specify a reasonable time, place, and manner of making the inspection and performing related acts. Except as may be ordered by the presiding officer, any place other than the place wherein the records are kept and any time other than usual business hours shall be considered unreasonable.

The party upon whom the request is served shall serve a written response within a period designated in the request, not less than 30 days after the service thereof or within such shorter or longer time as the presiding officer may allow. The response shall state, with respect to each item or category, that inspection and related activities will be permitted as requested, unless it is objected to, in which event the reasons for objection shall be stated. If objection is made to part of an item or category, the part shall be specified. The party submitting the request may move for an order under Rule 159(a) with respect to any objection to or other failure to respond to the request or any part thereof, or any failure to permit inspection as requested.

**RULE 158—Requests for admission.**

(a) *Request for admission.* A party may serve upon any other party a written request for the admission, for purposes of the pending proceeding only, of the truth of

any matters within the scope of Rule 151(c) set forth in the request, including the genuineness of any documents described in the request. Copies of documents shall be served with the request unless they have been or are otherwise furnished or made available for inspection and copying. The request may, without leave of the presiding officer, be served upon the party filing the initial pleading in an adversary proceeding and upon any party at any time after the proceeding has been designated for oral hearing subject to the qualification in Rule 151(f).

Each matter of which an admission is requested shall be separately set forth. The matter is admitted unless, within a period designated in the request, not less than 30 days after service thereof or within such shorter or longer time as the presiding officer may allow, the party to whom the request is directed serves upon the party requesting the admission a written answer or objection addressed to the matter, signed by the party or by his attorney. If objection is made, the reasons therefor shall be stated. The answer shall specifically deny the matter or set forth in detail the reasons why the answering party cannot truthfully admit or deny the matter. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party qualify his answer or deny only a part of the matter of which an admission is requested, he shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as a reason for failure to admit or deny unless he states that he has made reasonable inquiry and that the information known or readily obtainable by him is insufficient to enable him to admit or deny. A party who considers that a matter of which an admission has been requested presents a genuine issue for hearing may not, on that ground alone, object to the request; he may deny the matter or set forth reasons why he cannot admit or deny it.

The party who has requested the admissions may move for an order with respect to the answers or objections. Unless the presiding officer determines that an objection is justified, it shall order that an answer be served. If the presiding officer determines that an answer does not comply with the requirements of this rule, he may order either that the matter is admitted or that an amended answer be served. The presiding officer may, in lieu of these orders, determine that final disposition of the request be made at a pre-hearing conference or at a designated time prior to hearing.

(b) *Effect of admission.* Any matter admitted under this rule is conclusively established unless the presiding officer on motion permits withdrawal or amendment of the admission. The presiding officer may permit withdrawal or amendment when the presentation of the merits of the proceeding will be subverted thereby and the party who obtained the admission fails to satisfy the presiding officer that withdrawal or amendment will prejudice him in maintaining his position on the merits. Any admission made by a party under this rule is for the purpose of the pending proceeding only and is not an admission by him for any other purpose nor may it be used against him in any other proceeding.

**RULE 159—Failure to make discovery.**

(a) *Motion for order compelling discovery.* Upon reasonable notice to other parties and all persons affected thereby, a party may apply to the Commission for an order compelling discovery as follows:

(1) *Appropriate officer.* An application for an order to a party may be made to the presiding officer before whom the proceeding is pending. An application for an order to a deponent who is not a party shall be made to the presiding officer.

(2) *Motion.* If a deponent fails to answer a question propounded or submitted under Rules 153 and 154, or a party fails to answer an interrogatory submitted under Rule 156, or if a party, in response to a request for inspection submitted under Rule 157, fails to respond that inspection will be permitted as requested or fails to permit inspection as requested, the discovery party may apply for an order compelling an answer or an order compelling inspection in accordance with the request. On matters relating to a deposition on oral examination, the proponent of the question may complete or adjourn the examination before he applies for an order.

(3) *Evasive or incomplete answer.* For purposes of this subdivision an evasive or incomplete answer is a failure to answer.

**Rule 160—Subpena for taking depositions.**

Proof of service of a notice to take a deposition as provided in Rule 153(a), 153(b), and 154(a) constitutes a sufficient authorization for the issuance by the presiding officer of subpoenas for the persons named or described therein. The subpoena may command the person to whom it is directed to produce designated books, papers, documents, or tangible things which constitute or contain matters within the scope of the examination permitted by Rule 151(c), but in that event the subpoena will be subject to the provisions of Rule 151(d) and Rule 56(a) of the Commission's General Rules of Practice.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

## CIVIL AERONAUTICS BOARD

[Docket Nos. 21866, 22784; Order 71-1-30]

### CONTINENTAL AIR LINES, INC.

#### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of January 1971.

By tariff revisions marked to become effective January 11, 1971,<sup>1</sup> Continental proposes to increase first-class, coach, and economy-class fares by 3 percent in all of its markets over 800 miles in distance. First-class fares would bear a ratio of 130 percent to coach, and various discount fares would be adjusted to maintain existing or reduced percentage relationships recently permitted by the Board.

In justification of its proposal, Continental alleges that the markets involved (principally its east-west and Pacific Northwest-Southwest markets) present unique circumstances warranting the minimal increase sought. Its east-west services are characterized as highly competitive without the advantage of back-up traffic which enables its competitors to mount and support heavy frequencies.

The Pacific Northwest-Southwest services are characterized as involving relatively new markets which the Board recognized, at the time of the award, would require a substantial developmental endeavor before becoming profitable. It is also noted that these markets have subsequently been subjected to competitive services. Finally, Continental alleges that the existence of economy service in the markets in question is an important consideration since, even with the fare increases proposed, travelers will continue to have available a basic fare well below that produced by the present fare structure.

Continental's proposal to increase normal fares comes within the scope of the ongoing Domestic Passenger-Fare Investigation and its lawfulness will be determined in that proceeding. The Board has announced its intention to reach a decision in the fare level and related phases of that proceeding by the first of April 1971. The immediate question then is whether to permit the proposed increases to become effective or to suspend them pending conclusion of that investigation.

The proposal here to increase fares for the basic classes of service in markets over 800 miles involves the fare level over a substantial portion of Continental's system, and as such involves an evaluation of basic costs of service now under review in the general investigation. It also poses the structural question of whether or not existence of a third-level service justifies a level of coach fares differing from that in markets not afforded such service, a matter likewise to be decided in the investigation now in progress. For these reasons, and consistent with several recent actions relating to proposals of similarly broad scope,<sup>2</sup> we will suspend the proposed coach and economy fares and the discount fares which are derived therefrom. However, we will not suspend the proposed increases in first-class fares since the first-class fares appear to be underpriced in relation to both costs and value of service and we have permitted other recent increases.

<sup>2</sup> Orders 70-9-123, 70-11-133.

Upon consideration of the proposed military fares, the Board finds that they may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. The Board further concludes that they should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof, *It is ordered, That:*

1. An investigation is instituted to determine whether the YM and M class fares and provisions described in Appendix A attached hereto,<sup>3</sup> and rules, regulations, or practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A attached hereto<sup>3</sup> are suspended and their use deferred to and including April 10, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation of the military fares ordered herein is hereby consolidated into Docket 22784; and

4. A copy of this order will be filed with the aforesaid tariffs and served upon Continental Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

## EASTERN AIR LINES, INC. AND NATIONAL AIRLINES, INC.

### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of January 1971.

By tariff revisions<sup>1</sup> marked to become effective January 11, 1971, Eastern Air Lines, Inc. (Eastern) and National Airlines, Inc. (National) propose to increase certain markets under 500 miles in distance which involve the Boston, New York, and Washington/Baltimore terminals. The increases range from \$0.93 to \$3.70 under both proposals. In addition, Eastern proposes to increase children's fares and fares for minors accompanied by a family member from 50 percent to 66 2/3 percent of the normal coach fare.

<sup>3</sup> Filed as part of the original document.

<sup>4</sup> Concurring and dissenting statements of Vice Chairman Gilliland and Member Minetti filed as part of the original document.

<sup>1</sup> Revisions to Airline Tariff Publishers, Inc., Agent-Tariffs CAB No. 136.

In justification of its proposal Eastern alleges that its proposed fares are consistent with recent orders permitting similar increases for American, Mohawk, and Northeast; that it conducts a large portion of its operations in highly congested short-haul markets; and that the added costs incurred in these operations fully warrant fare increases similar to those previously permitted in Orders 70-11-134 and 70-11-136. National makes only the general assertion that its proposal is in conformance with Order 70-11-136.

Complaints have been filed by Mr. Reuben B. Robertson, III, and Representative John Moss and 39 other Members of Congress requesting investigation and suspension. Mr. Robertson's complaint alleges that the carriers have utterly failed to demonstrate any showing of a special need or any other economic or social justification for raising fares now in these markets; that it is not necessary from the standpoint of remaining competitive "to meet" higher fares; and that Board action based on American's submissions cannot serve as justification, per se, for raising everyone's prices. The complaint contends that quite apart from the question of who is responsible for congestion and who must pay for it, no carrier should be permitted to profit from the existence of congestion unless it can demonstrate that it has not been able to turn a profit in high density markets despite efficient operations. It is further alleged that under the law carriers filing for fare increases have the burden of proof that the filings are economically justified and they have not done so in this case; that unless the Board enforces its own rules on economic justification of fare and rate filings it, effectively freezes the public out of these regulatory proceedings; and that the Board has a duty to estimate and take into account demand elasticity factors before granting any fare increase.

The Moss complaint touches on most of the points raised by Mr. Robertson, emphasizing that the carriers have failed to show that they are incurring losses in the markets in which they are seeking fare increases, nor have they furnished cost estimates necessary to support the allegation that the increases are required to bring revenues more into line with the costs of service.

In answer to the complaints, Eastern alleges that each of the fare increases it proposes involves markets in which the Board has already found atypically higher costs due to congestion; that complainants are incorrect in contending that the costs previously relied upon by the Board were unique to the proponent carriers; and that they are unique to specific markets and common to all carriers in that market. Eastern estimates system costs attributable to congestion delays at \$17.8 million in 1969, and states that obviously a substantial portion of those added costs are incurred in the markets in question. It is contended that, while the question of demand elasticity is pertinent, this factor can only be an estimate, and past estimates indicate a

lack of elasticity in short-haul business markets. With respect to the need for market load factor data, it is alleged that this is immaterial here, in light of American's earlier demonstration that carrier efficiency cannot overcome the short-haul cost/revenue gap. Finally, Eastern contends that unless all carriers in a market are permitted similar increases, those that have been will be unable for competitive reasons to maintain their higher fares which have been found warranted.

National contends in answer that references in the complaints to the Board's "rate-determining process" and the carriers' "burden of proof" misconstrue the requirements of the Act; that there are no such requirements in connection with finding a tariff filing as prima facie lawful; and that such requirements only come into play in connection with the hearing process. National alleges that neither complaint points out in what ways its proposal is unlawful; that the markets in question have twice been characterized as having atypical high congestion/density cost-related features (Orders 70-11-134 and 70-11-136); and denies the allegation that its proposal is not just and reasonable on its face. Finally, National states that it expects to realize additional revenues of some \$1,220,000 for calendar 1971.

The proposals here to increase certain coach fares come within the scope of the Domestic Passenger-Fare Investigation now actively in process and the lawfulness of these fares will be determined in that proceeding. It is anticipated that a decision on the fare level and directly related issues will be reached by about April 1, 1971. The issue now before us is whether to permit to become effective or suspend these proposed fares pending a final determination of their lawfulness in that investigation.

Eastern's filing involves only 16 markets and National's only 23 markets out of their entire domestic systems and both purport to be justified on facts and circumstances peculiar to operations at and between these particular points. As such, these filings do not involve an evaluation of basic costs of service, including load factors, now underway in the passenger fare investigation to the same degree as the earlier tariff proposals to increase all or most coach fares which were suspended pending investigation.<sup>5</sup>

Eastern's proposal is limited entirely to markets in which the Board has recently permitted fare increases to compensate for demonstrated additional costs associated with airport and airway congestion, and 11 of the markets encompassed in National's filing fall in this same category. We believe there is merit to Eastern's contention that costs attributable to congestion are unique as among markets but common as among carriers. It is reasonable to conclude that its costs, as well as National's, in these particular markets are comparable to

<sup>5</sup> Order 70-9-123.

those previously demonstrated by other carriers, and that their abilities to achieve profitable operations in these markets would be similarly affected. Accordingly, the Board will permit the increases proposed by Eastern and National in these markets, despite the fact that the carriers have not provided specific data related to each. We will also permit National to increase its fares in the Washington/New York-Providence markets, again despite the lack of market-by-market information. These two markets lie directly along the northeast corridor, which is acknowledged as one of the most congested areas in the country, and we have previously permitted similar increases between these terminals and the adjacent point of Hartford.<sup>3</sup> Finally, the Board will permit Eastern's proposal to increase its fares for children and minors accompanied by an adult family member, consistent with our action in Order 70-11-133.

The Board has concluded to suspend the fare increases proposed by National in the remaining 10 markets in the absence of a showing of losses sustained as a result of airport and airway congestion. We distinguish between a "terminal" versus a "market" approach and believe that trunkline carriers should be permitted increases only when it is reasonably demonstrated that particular markets have characteristics which could normally be expected to result in profitable operations. To do otherwise could lead to a general erosion of the concept of a fare over-ride to compensate for atypical operating conditions, and lead to fare increases of a general nature inconsistent with our action in Order 70-9-123.

Upon consideration of all relevant matters, the Board finds that the proposed military fare increases, which stem from higher basic fares we are herein suspending, may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. We further conclude that these fares should be suspended together with all other fare increases in the same markets pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

*It is ordered, That:*

1. An investigation is instituted to determine whether the YM (Military Reservation) class and M (Military standby) class fares and provisions described in Appendix A attached hereto,<sup>4</sup> and rules, regulations, or practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described

in Appendix A hereto<sup>4</sup> are suspended and their use deferred to and including April 10, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation of the military fares ordered herein is hereby consolidated into Docket 22784;

4. A copy of this order will be filed with the aforesaid tariff and be served on Eastern Air Lines, Inc., National Airlines, Inc., and the complainants in Dockets 22905 and 22915; and

5. Except to the extent granted herein, the complaints in Dockets 22905 and 22915 insofar as they apply to the filings considered herein are dismissed.

This order will be published in the FEDERAL REGISTER.

### Order Regarding Specific Commodity Rates

Issued under delegated authority January 6, 1971.

By Order 70-12-125, dated December 21, 1970, action was deferred with a view toward eventual approval, on an agreement embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA) and adopted by the 27th Meeting of the Traffic Conference 1 Specific Commodity Rates Board. The agreement proposes revisions to the specific commodity rate structure currently applicable within the Western Hemisphere, including reduced rates under new commodity descriptions, the addition of several rates to added points and the cancellation of other rates under existing commodity descriptions, and increases in the majority of remaining rates currently effective.

In deferring action on the agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 70-12-125 will herein be made final.

As it applies in air transportation, the agreement is essentially limited to matters relating to trans-Pacific commodity rates. Certain specific commodity rates previously approved by the Board would be extended for a further period of effectiveness; the agreement also names several rates to added points, cancels other rates under existing commodity descriptions, reduces a limited number of currently applicable rates, and proposes reduced rates under new commodity descriptions.

### MOHAWK AIRLINES, INC.

#### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of January 1971.

By tariff revisions<sup>1</sup> marked to become effective January 11, 1971, Mohawk Airlines, Inc. (Mohawk), proposes to increase its regular fares in 69 short-haul markets in amounts ranging from \$1.85 to \$3.70. Mohawk proposed fare increases in these same markets effective December 1, 1970, and those fares were suspended by Order 70-11-136 because rounding techniques inconsistent with previous Board Orders were employed in their construction. The fares proposed herein are at the same level in all instances as those suspended by our previous order. These proposed fares appear to circumvent the intent of Order 70-11-136, and will therefore be suspended. These fares are under investigation in the above Docket.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto,<sup>2</sup> are suspended and their use deferred to and including April 10, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board; and

### UNITED AIR LINES, INC.

#### Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of January 1971.

By tariff revisions<sup>1</sup> marked to become effective January 11, 1971, United Air Lines, Inc. (United) proposes to increase coach fares to pre-October 1969 levels in longer haul markets where fares were reduced at that time, and to reduce the

military discount from 50 to 40 percent of coach.<sup>4</sup>

In support of its proposed increases, United alleges that the serious financial condition of it and the domestic trunk-line industry generally has not improved since last August; that earnings continue to deteriorate; that United's current outlook for the year 1970 is for a traffic level reflecting no increase over the previous year and a \$35 million net loss; and that while United and the industry continue to exert all possible efforts to improve their dismal outlook by capacity reductions and other forms of cost control, several factors indicate that this will be a very difficult undertaking with limited potential. United further alleges that its cost per available ton mile continues to increase, the increases for the months of July, August, and September over the preceding year being 9 percent, 10 percent, and 6 percent, respectively. Finally, it is alleged that the proposed military standby fares will still be its lowest promotional fare for individual passengers.

Representative John E. Moss and 39 other Members of Congress have filed a complaint against the carrier's proposal to increase certain long- and medium-haul fares. The complaint asserts that no estimate of cost of service is provided nor are there facts to support an allegation that increases are required to bring revenues more into line with cost of service in these markets, even with excess capacity. The complaint further alleges that the proposal may be self-defeating because of the possible loss of traffic due to the fare increases.

The proposal to increase normal coach fares comes within the scope of the ongoing Domestic Passenger-Fare Investigation and their lawfulness will be determined in that proceeding. We expect to issue a decision on the fare level and directly related issues by approximately the first of April 1971. The immediate question then is whether to permit the increases to become effective or to suspend them pending investigation. The proposal with respect to military standby fares is not within the general investigation.

The proposal to restore coach fares to the pre-October 1969 level involves the basic normal fares applicable over a fairly substantial portion of the carrier's system, and will materially alter the fare structure, thus raising questions to be resolved in the general investigation. By Order 70-9-123, the Board suspended various tariff filings proposing general fare increases pending resolution of the underlying issues in Docket 21866. United does not attempt to justify the instant proposal in terms of special circumstances in the affected markets, but instead its rationale is based essentially on

<sup>4</sup> United also proposes to increase coach fares in 24 short-haul markets. A complaint has been filed against this proposal, and the matter will be disposed of by subsequent order.

its general revenue need, a matter which will be considered by the Board in Docket 21866. In view of the interim nature of all fare changes made at this time, we do not believe it in the public interest to permit fare increases except where special circumstances are shown. Accordingly since United makes no such showing and consistent with our action in Order 70-9-123, we have decided to suspend the proposed increases in coach fares, and other increased fares based thereon.

The Board has recently suspended proposals of other carriers to increase military-reservation fares from 66% to 75 percent of coach, and military-standby fares from 50 to 66% percent of coach. Consistent with those actions, we will suspend United's proposal to increase military standby fares by approximately 20 percent. As we have previously indicated, we believe the broad public interest and national defense considerations invested in such fares should be carefully explored before significant increases are permitted.

Upon consideration of all relevant matters, the Board finds that the proposed military-standby fares may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. For the reasons stated above, we find that all fares considered herein should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

*It is ordered, That:*

1. An investigation is instituted to determine whether the YM and M class fares and provisions described in Appendix A, attached hereto,<sup>3</sup> and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto<sup>3</sup> are suspended and their use deferred to and including April 10, 1971, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation of the military fares ordered herein is hereby consolidated into Docket 22784;

4. A copy of this order will be filed with the aforesaid tariffs and served upon certain members of Congress, and United Air Lines, Inc.; and

5. Except to the extent granted herein, the complaint in Docket 22915 is hereby dismissed insofar as it applies to filings considered herein. The complaint was also filed against other proposals which will be disposed of by subsequent orders.

# UNITED AIR LINES, INC.

## Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 7th day of January 1971.

By tariff revisions<sup>1</sup> marked to become effective January 11, 1971, United Air Lines, Inc. (United) proposes to increase coach fares in 24 markets of less than 750 miles by \$3. In addition, it proposes to match recently permitted fares of American Airlines, Inc., in 6 additional markets.

In support of its proposed increases, United alleges that the serious financial condition of it and the domestic trunk-line industry generally has not improved since last August; that earnings continue to deteriorate; that United's current outlook for the year 1971 is for a traffic level reflecting no increase over the previous year and a \$35 million net loss; that while United and the industry continue to exert all possible efforts to improve their dismal outlook by capacity reductions and other forms of cost control, several factors indicate that this will be a very difficult undertaking with limited potential; and that its cost per available ton mile continues to increase, the increases for the months of July, August, and September over the preceding year being 9 percent, 10 percent, and 6 percent, respectively. United further alleges that the 24 short-haul markets are high density in nature and that the concept is similar to a filing made by American and estimates that the proposed increases would result in additional annual revenues of about \$11 million.

Complaints have been filed by Mr. Reuben B. Robertson, III, and Representative John Moss and 39 other Members of Congress requesting investigation and suspension. Mr. Robertson's complaint alleges that the carrier has utterly failed to demonstrate any showing of special need or any other economic or social justification for raising fares now in these markets; that it did not submit justification in conformance with section 221.165 of the Board's economic regulations; that it is not necessary from the standpoint of remaining competitive "to meet" higher fares; and that Board action based on American's submissions cannot serve as justification, per se, for raising everyone's prices. The complaint contends that, quite apart from the ques-

tion of who is responsible for congestion and who must pay for it, no carrier should be permitted to profit from the existence of congestion unless it can demonstrate that it has not been able to turn a profit in high density markets despite efficient operations.

It is further alleged that the Board should not place itself in the position of allowing carriers to play fast and loose with the requirements for justification once one carrier has been allowed to increase rates; that under the law carriers filing for fare increases have the burden of proof that the filings are economically justified and they have not done so in this case; and that unless the Board enforces its own rules on economic justification of fare and rate filings it joins in complicity with the carriers in effectively freezing the public out of these regulatory proceedings. Finally, it is contended that the Board has a duty to estimate and take into account demand elasticity factors before granting any fare increase.

In answer to the complaints, United alleges that its filing corresponds to tariff revisions of American recently approved by Board Order 70-11-134; that it can be concluded from that order that a demonstrated revenue need resulting from substandard carrier earnings when coupled with a sound basis for applying a fare increase to a particular market is sufficient justification for permitting an interim fare increase, and that, unlike American, it did not submit supporting data with this revision since revenue need has been frequently demonstrated, and the Board had already found that the high cost of operating into congested airport areas was generally acknowledged. United also alleges that the specific market and traffic data sought by the complainants is not pertinent to its filing; and that it is not necessary to demonstrate a loss operation in each and every market to which a fare increase is to be applied where it has been demonstrated that a substantial system revenue need exists and particularly where system revenues are not meeting system expenses.

The proposals to increase normal coach fares come within the scope of the ongoing Domestic Passenger Fare Investigation and their lawfulness will be determined in that proceeding. We expect to issue a decision on the fare level and directly related issues by approximately the first of April 1971. The immediate question then is whether to permit the increases to become effective or to suspend them pending investigation.

United's filing involves only 30 markets out of its entire domestic system and purports to be justified on facts and circumstances peculiar to operations at and between these particular points. As such, this filing does not involve an evaluation of basic costs of service now underway in the passenger fare investigation to the same degree as the earlier tariff proposals to increase all or most coach fares which were suspended pending investigation.<sup>2</sup>

<sup>2</sup> Order 70-8-123.

<sup>4</sup> Concurring and dissenting statement of Vice Chairman Gilliland and separate statement of concurrence and dissent by Member Minetti filed as part of the original document.

<sup>1</sup> Revisions to Airline Tariff Publishers, Inc., Agent, Tariff CAB No. 136.

In eight of the 30 markets,<sup>3</sup> the Board has previously permitted fare increases to compensate for demonstrated additional costs associated with airport and airway congestion. We believe it reasonable to conclude that costs attributable to congestion are common to all carriers operating in a market and would similarly affect all carriers' ability to achieve profitable operations in markets affected by congestion. Accordingly, we will permit United's proposed increases in these eight markets to become effective.

The Board has concluded to suspend the fare increases proposed by United in the remaining 22 markets in the absence of a showing of losses sustained as a result of airport and airway congestion. As we have previously indicated, we distinguish between a "terminal" versus a "market" approach and believe that trunkline carriers should be permitted increases only when it is reasonably demonstrated that particular markets have characteristics which, but for severe congestion, could be expected to result in profitable operations. To do otherwise could lead to a general erosion of the concept of a fare over-ride solely to compensate for atypical operating conditions, and lead to fare increases of a general nature inconsistent with our action in Order 70-9-123.

Upon consideration of the tariff filing, the complaints and answer thereto, and all other relevant matters, the Board finds that the proposed military fare increases, which stem from higher basic fares we are herein suspending, may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that these fares should be suspended, together with the other fare increases indicated above, pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

*It is ordered, That:*

1. An investigation is instituted to determine whether the YM class fares and provisions described in Appendix A attached hereto,<sup>4</sup> and rules, regulations, or practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto<sup>4</sup> are suspended and their use deferred to and including April 10, 1971, unless otherwise ordered by the Board, and that no

changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation of the military fares ordered herein is hereby consolidated into Docket 22784; and

4. A copy of this order will be filed with the aforesaid tariff and served upon United Air Lines, Inc.

This order will be published in the **FEDERAL REGISTER**.

## Notice of application filed by:

Edward G. Lowry, III, Bogle, Gates Dobrin, Wakefield & Long, 14th Floor Norton Building, Seattle, WA 98104.

Application designated Exemption No. 6 is hereby made pursuant to section 35 of the Shipping Act, 1916, for exemption from the Intercoastal Shipping Act, 1933 and the Shipping Act, 1916, and regulations applicable thereunder for the carriage of general cargo between Seattle, Wash. and the Arctic Coast of Alaska between Beechey Point and Tigvariak Island, via the Gulf of Alaska, the Bering Sea, and the Arctic Ocean.

The grounds for the application for exemption are the same as those asserted in the application of Puget Sound Tug and Barge Co. and Alaska Barge and Transport, Inc. in Exemption No. 4, which was approved by the Commission (46 CFR § 531.26(c) 35 F.R. 9925 June 17, 1970), and Foss Launch & Tug Co. and Foss Alaska Line, Inc., in Exemption No. 5, which was approved by the Commission (46 CFR § 531.26(c) 35 F.R. 10622 June 30, 1970).

The proposed service is designed for the movement of general cargo including bulk liquids to and from the oil field discovered in 1968 near Prudhoe Bay,

Alaska. The major oil companies engaged in operations at the site and their suppliers urgently require water transportation for their food, clothing, shelter, communications gear, drilling equipment, pipeline material, supplies, and equipment. No port or port facilities exist on this coast and due to the difficulty of construction it is doubtful that ports will be developed in the foreseeable future.

The timing of operations is determined by the ice conditions in Prudhoe Bay. Vessels must arrive off Point Barrow in time for the earliest movement of pack ice offshore. Vessels must move to the destination, discharge and return South of Point Barrow before the ice returns, which is normally within 4 to 6 weeks. Owing to its specialized character, the movement does not lend itself to rate regulation.

This exemption from the requirements of the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933, will become effective upon approval of the Commission pursuant to section 35 of the Shipping Act, 1916.

Dated: January 8, 1971.

Secretary.

Agreement No. T-2480 between the Port of Oakland (Port) and Seatrain Terminals of California, Inc. (Seatrain) provides for the lease of certain marine terminal area facilities and the non-exclusive preferential assignment of berthing area by the Port to Seatrain for a term of not less than 25 years and not more than 30 years depending upon the maturity dates of certificates of indebtedness issued by the Port to acquire

the premises and improvements thereon from Seatrain and to provide for additional improvements. Annual base rental for the premises is a sum sufficient to pay principal and interest on outstanding certificates of indebtedness. Said base rental is estimated to be at least \$1,500,000. Seatrain will also reimburse the Port for certain expenses. The Port retains secondary berthing rights provided such use shall not interfere with the operations of Seatrain. ### Notice of application filed by:

John Cunningham, Kominers, Fort, Schlefer & Boyer, 1401 K Street NW., Washington, DC 20005.

Application designated Exemption No. 7 is hereby made pursuant to section 35 of the Shipping Act, 1916, for exemption from the Intercoastal Shipping Act, 1933, and the Shipping Act, 1916, and regulations applicable thereunder for the carriage of general cargo between Seattle, Wash., and the Arctic Coast of Alaska between Beechey Point and Tigvariak Island, via the Gulf of Alaska, the Bering Sea and the Arctic Ocean.

The proposed service is designed for the movement of general cargo, including

bulk liquids, to and from the oil field discovered in 1968 near Prudhoe Bay, Alaska. The major oil companies engaged in operations at the site and their suppliers urgently require water transportation for their food, clothing, shelter, communications gear, drilling equipment, pipeline material, supplies, and equipment. No port or port facilities exist on this coast and due to the difficulty of construction it is doubtful that ports will be developed in the foreseeable future.

The timing of operations is controlled by ice. Cargoes must be held at the carrier's dock in Seattle until shortly after midsummer, at which time all vessels engaged in the movement depart for the Arctic as a flotilla so as to arrive off Point Barrow in time for the earliest movement of pack ice offshore. Vessels must move to the destination, discharge and return south of Point Barrow before the ice returns, which is normally within 4 to 6 weeks. Owing to its specialized character, the movement does not lend itself to rate regulation and applicant doubts that the movement is common carriage subject to regulations.

This exception from the tariff filing requirements and regulations of the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933, will become effective upon approval of the Commission pursuant to section 35, Shipping Act, 1916.

Dated: January 8, 1971.

The proposed increased rate is suspended for 1 day.

Mobil Oil Corp. requests waiver of the 30-day notice requirement and a 1-day suspension period from the date of filing. This request is pursuant to the order issued December 11, 1970. The buyer, Southern Union Gathering Co., has previously protested tax reimbursement. In view of the contractual problem presented, the hearing herein shall be concerned with the contractual basis for such rate filings, as well as the statutory lawfulness of the proposed increased rates.

## CUMBERLAND NATURAL GAS CO., INC., ET AL.

### Notice of Applications and Consolidation

JANUARY 11, 1971.

Take notice that on January 7, 1971, National Chemical Corp. (applicant), 406 Kenyon Building, Louisville, KY 40202, filed in Dockets Nos. CI71-506 and CI71-507 applications pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing the sales of natural gas in interstate commerce to Cumberland Natural Gas Co. (Cumberland) and pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon said sales, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

By order issued November 25, 1970, in Docket No. CP70-199 applicant was ordered to show cause why it should not be found to be a "natural-gas company" within the meaning of the Natural Gas Act and to be required to obtain a certificate to continue and permission and approval to abandon the operation of facilities and transportation of natural gas as assignee of Cumberland and the sales of natural gas hereinafter described. The proceeding in Docket No. CP70-199 was initiated by the filing by Cumberland of an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the transportation and sale of natural gas produced from applicant's properties and the facilities used therefor.

In Docket No. CI71-506 applicant requests a certificate authorizing it to continue the sale of natural gas to Cumberland from the White Plains Field, Hopkins County, Ky., heretofore authorized in Docket No. CI64-457 to be made by Creek Oil Co. (Creek). Applicant

states that on April 9, 1966, Creek assigned the subject producing properties to Tartan Oil Company (Tartan); that in January 1967 Tartan discontinued service to Cumberland; and that by assignment of January 31, 1970, Tartan assigned the subject properties to applicant. Applicant states further that at the time the sale was discontinued by Tartan the cumulative production from the lease including the subject properties exceeded the original gas in place, that since January 1967 neither Tartan nor applicant has produced any gas from the subject properties, and that presently there is no native gas in place available for delivery in interstate commerce. Applicant requests permission and approval to abandon the subject sale.

In Docket No. CI71-501 Applicant requests a certificate authorizing it to continue the sale of natural gas to Cumberland from the Collier Unit, Harp's Hill area Muhlenberg County, Ky., heretofore authorized in Docket No. G-18743 to be made by J. C. Miller Co., Inc. (Miller). Applicant states that in 1963 Miller assigned to Tartan part of the acreage from which sales were authorized; that part of the assigned acreage was unitized by Tartan into the Collier Unit; that by assignment of January 31, 1970, Tartan assigned the subject properties to Applicant; and that from January 31, 1970, until April 27, 1970, Tartan continued to own, operate, manage, and control the properties under contract of sale to applicant. Applicant states further that the necessary connecting line was never installed by Cumberland to the Collier Unit well; that on and after April 27, 1970, no gas has been produced from the subject properties; and that estimated reserves on April 27, 1970, were 15,414 Mcf of gas. Applicant requests permission and approval to abandon that part of the sale authorized in Docket No. G-18743 from acreage in the Collier Unit.

As noted in the aforementioned order to show cause the matters now formally presented in the applications in Dockets Nos. CI71-506 and CI71-507 involve questions of law and fact common to and first raised in the proceedings now pending in Docket No. CP70-199. The instant applications filed pursuant to the order to show cause issued in Docket No. CP70-199 are, therefore, to be heard on a consolidated basis with the latter application.

In order not to delay unduly the hearings which have commenced, it is reasonable and consistent with the public interest that the time fixed for the filing of petitions to intervene and protests should be less than the 15 days prescribed by the Commission's rules of practice and procedure (18 CFR 1.19). Accordingly, any person wishing to become a party to the consolidated proceeding should on or before January 22, 1971, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Those already parties to the proceeding in Docket No. CP70-199 need not refile to intervene. All protests filed with the

Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

GORDON M. GRANT,  
Secretary.
